

Dear Pharmacist and PMA

Claiming codes for Libcare Medical Scheme: Dispensing fees

As you know, LIBCARE Medical Scheme claims processes run off the Discovery Health administration platform. It is important to note that this is not a change in Libcare's administrator, Liberty Health Administration (LHA) remains the Scheme's administrator. However, LHA is now owned by Discovery Health.

Identifying LIBCARE Medical Scheme members

Below is an example of a LIBCARE Medical Scheme membership card.

Submit claims via the Discovery administration platform using the below code(s):

- Destination code – MSLI0000
- Option code – Acute DISCLIA
- Option code – Chronic DISCLIC

The current dispensing fees remain unchanged for the remainder of 2021. Please submit the claims using your pharmacies' current dispensing fee set-up and submit it on the new option codes.

For Pharmacist Advised Therapy (PAT), submit the pharmacy practice number as referring provider.

Pharmacy clinic procedure codes

The existing pharmacy codes apply

| Pharmacy codes | Procedure | Procedure code |
|----------------|------------------------------------------------------------|----------------|
| 098 000 001 | Blood glucose | 0012 |
