

CREATING BETTER BUSINESSES WITH ENDEAVOR

Discovery Business Insurance and Endeavor South Africa partnership

Endeavor is a global, not-for-profit organisation that enables high-growth businesses to succeed. Their research shows that the right support at the right time throughout the business lifecycle can contribute to greater success and business continuity¹.

Discovery Business Insurance has partnered with Endeavor South Africa to develop a solution that is suitable to businesses of all sizes in South Africa.

At Discovery Business Insurance we believe that businesses that proactively take steps to grow are the same businesses that have lower insurance risks. All businesses that insure with Discovery Business Insurance will have access to a diagnostic tool, the Business Health Check, that helps them identify key areas of development so that they can grow their business.

THE BENEFITS OF OUR BUSINESS HEALTH CHECK ARE:

Creating an awareness of key areas of development

Providing access to a tailored collection of world class service providers at preferential rates to incentivise behaviour change

Promoting business growth through positive behaviour changes as clients continue to engage with the programme

CLIENTS CAN ASSESS AND IMPROVE THEIR BUSINESS IN 3 STEPS:

STEP
01

Complete the Business Health Check

Clients answer a series of questions about their business profile

STEP
02

Get a business score

Using data that compares them to similar businesses, we can calculate a scientific score of their business health and provide them with actionable insights

Example of scores

80 | Money

70 | Customers

60 | People

90 | Operations

STEP
03

Get access to partners

Clients receive tailored recommendations and access to our Endeavor partners at preferential rates

Example of a responses to a People score:

Employee engagement is critical for strong businesses to grow and thrive. Within your team, consider setting up clear performance metrics and mechanisms to evaluate staff and also allow for them to provide feedback.

Tools like the Net Promoter Score can help to benchmark staff engagement against global standards. Partners like Edelman can assist with staff engagement and communications.
