UNDERSTANDING THE TRAUMA BENEFIT

While on- and off-line, the Trauma benefit provides access to emergency private healthcare services for defined traumatic events. You are covered for these events up to R300 000 per admission and won't have to pay upfront for contracted medical services provided by a healthcare provider or hospital.

WE COVER

Burns, head injuries, chest injuries or severe fractures as a result of a fall, loss of an arm, hand, leg or foot, near drowning, poisoning or a serious allergic reaction that may cause death, injuries resulting from a crime, sexual assault, a fall, a car accident or an injury at work.

MEDICAL EVACUATION AND AMBULANCE SERVICES

You can call Netcare 911 on 0860 999 911 or 0860 444 779, select option 1 for assistance. If you experience a traumatic event, you have cover for medical evacuation services to the most clinically appropriate hospital facility. For life-threatening emergencies, you will be taken to the nearest hospital or casualty facility. For all other covered traumatic events, one of our preferred providers will be used.

CASUALTY TREATMENT

At the hospital, you have access to medical treatment in the casualty unit for the defined list of trauma conditions.

STABILISATION AND TREATMENT IN HOSPITAL

You will have cover for in-patient hospital stabilisation and treatment. You are covered up to R300 000 per admission for hospital and related accounts. If the hospital and related accounts reach the Trauma Benefit cover limit, you will be transferred to a state facility or discharged if stabilised. If your treatment costs more than the selected cover amount, you will need to pay the rest.

MEDICINE PRESCRIBED IN HOSPITAL

Medicine prescribed after treatment in the casualty unit or in the hospital must be collected from a Primary Care network pharmacy within 7 days of your treatment and needs to be on the Primary Care medicine list.

TRAUMA COUNSELLING

You and your dependants have access to two counselling sessions after a traumatic event. Discovery Primary Care will reach out to the individuals impacted by the trauma one day after the event. Counseling is available telephonically or face-to face depending on what you need.
