DISCOVERY HEALTH MEDICAL SCHEME
EXTERNAL MEDICAL ITEMS
BENEFIT

Overview

This document tells you more about how the External Medical Items (EMI) Benefit works and how to apply for additional cover if you have a severe, complex condition that requires additional External Medical Items.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Above Threshold Benefit (ATB)	Available on the Executive, Comprehensive and Priority plans Once the claims you have sent to us add up to the Annual Threshold, we pay the rest of your claims from the Above Threshold Benefit (ATB), at the DHR or a portion of it. The Executive and Comprehensive plans have an unlimited ATB, and the Priority plans have a limited ATB.
Discovery Health Rate	This is a rate set by us. We pay for healthcare services from hospitals, pharmacies and healthcare professionals at this rate.
External Medical Item (EMI)	An External Medical Item (EMI) acts as a substitute or assists parts of the body that are missing or non-functional. Use of these items is usually recommended by a variety of medical professionals such as medical doctors, physiotherapists, occupational therapist, prosthesis and orthotists as well as other allied healthcare professionals.

The External Medical Items (EMI) Benefit at a glance

We pay for external medical items from your Medical Savings Account (MSA) and Above Threshold Benefit (ATB) subject to funds being available and subject to the overall annual External Medical Items (EMI) limit, which depends on your health plan.

The Classic Comprehensive Zero MSA Plan does not have a Medical Savings Account and so there is no benefit for external medical items until you reach the Annual Threshold. After this, we pay claims from the Above Threshold Benefit, up to the overall annual EMI limit.

We pay for external medical items up to an annual limit on the Executive, Comprehensive and Priority Plans

External medical items are funded at 100% of the Discovery Health Rate up to an overall annual limit, which varies according to plan type. Please refer to benefits available on the "Benefits available for your plan" section to see the limit applicable to your health plan.
