Optional Trauma Benefit

We cover treatment for the following trauma conditions:
- Burns
- Head injuries, chest injuries or severe fractures as a result of a fall
- Loss of an arm, hand, leg or foot
- Near drowning
- Poisoning or a serious allergic reaction that may cause death
- Injuries resulting from a crime, sexual assault, a fall, a car accident or an injury at work.

The Trauma Benefit is optional. If you activate this benefit, it will be added to all your business employees on Discovery Primary Care. You must select a cover limit of either R300 000 or R1 million. The Trauma Benefit applies to business employees and their registered dependants.

TRAUMA EVENT COVER
To provide access to emergency private healthcare services for a broad range of traumatic events at any private hospital, you can enhance cover for your business employees and their dependants through the Trauma Benefit.

Employees are covered for medical treatment relating to these events up to a defined limit. You can choose a limit of either R300 000 or R1 million per admission.

In the case of a traumatic event, the emergency services will determine the most clinically appropriate course of action. For life-threatening emergencies, employees will be taken to the nearest hospital or casualty facility. For all other traumatic events, one of our preferred providers will be prioritised.

Following the event, Discovery Primary Care will reach out to your business employee and their family and offer two counselling sessions, either face-to-face or telephonically, with a trained trauma or support counsellor.

MEDICAL EVACUATION
If your business employees experience a traumatic event, they have cover for medical evacuation services to the most clinically appropriate hospital facility.

CASUALTY TREATMENT
At the hospital, your business employees have access to medical treatment in the casualty unit for the trauma conditions we cover as part of the Trauma Benefit.

STABILISATION AND TREATMENT WHEN ADMITTED TO HOSPITAL
Your business employees also have cover for in-patient hospital stabilisation and treatment. Depending on the option you choose, they are covered up to R300 000 or R1 million per admission for hospital and related accounts.

The accounts will be settled directly with the service provider. If treatment costs more, the employee will need to pay for amounts over their limit. If the employee is stabilised or admitted to hospital and the hospital and related accounts accumulate to their limit, they will be transferred to a state facility or discharged if stabilised.
