

## Discovery Health formularies and benchmark pricing

Period: 2020 Q3 & Q4

Expected implementation date: 28 August 2020

Performance Based Remuneration (PBR) is a voluntarily programme designed to provide additional remuneration to pharmacists for adhering to the DHMS formulary.

The PBR model aims to create additional funding through added prescription price efficiency and reduced remuneration for items that are not on the formulary. The inclusion of a broader set of products allows for a more affordable cross-funding mechanism.

While prescriber preferences may from time to time compromise adherence to the formulary, this is adequately compensated for in the PBR model by lower compliance thresholds. Depending on the availability of preferentially priced generics, there may not always be a generic replacement item on the PBR formulary.

PBR applies to Discovery Health Medical Scheme for claims paid from the Chronic Illness Benefit.

### We have enhanced what is flagged on pharmacy screens:

- Flaged items on pharmacy screens now include all formulary items, inclusive of non-PBR related items. Only PBR items attract additional dispensing fees subject to PBR rules.
- PBR items can be identified by CDL formulary flags and benchmark values.
- Although non-PBR items do not attract additional remuneration, it represents the Oncology and HIV formulary items as well as all DHMS plans. It may also represent other DH preferred items even non-formulary.

### PBR Exclusions:

Claims for items listed below do not qualify for additional PBR dispensing fees and continue to be paid at the appropriate chosen standard network rates. These comprise claims:

- for KeyCare and Delta plans;
- for Non-SEP items such as unregistered medicine, schedule 0 medicines and surgical items;
- paid from HIV, oncology, acute and SMTB benefits.
- submitted by pharmacies without a signed non-exclusive designated service provider (DSP) contract
- submitted by courier pharmacies

For out-of-stock products, pharmacists must please substitute with alternative formulary or benchmark items as most of these do not need to be re-authorised. Where necessary, however, please obtain authorisation for a replacement item by submitting the application form to CIBAPPFORMS@discovery.co.za or calling Add-A-Line on 0860 44 55 66 for emergencies.

Application forms can be obtained from CIBAPPFORMS@discovery.co.za or by calling 0860 44 55 66
