

## THE PURPLE PLAN

# CELLPHONE UPGRADE BENEFIT

*Purple Plan clients qualify for an upgrade to the latest Apple or Samsung cellphone every 12 months*

### To qualify for this benefit, you must have:

- Been on the Purple Plan for at least 12 months.
- At least two cars insured on your Purple Plan.
- Both household contents and buildings cover.
- Had no claims on your Purple Plan over the past 12 months (except SOS claims and windscreen claims).

To receive your new cellphone, you must trade in your existing cellphone. Discovery Insure will cover the difference between the trade-in value of your old phone and the price of the new phone **up to R10 000.**

### How it works

- The upgrade must be done at a Cellucity store or iStore (from hereon, we will refer to these as 'the store').
- You must inform the store that you would like to upgrade your cellphone as part of the cellphone upgrade benefit available to Discovery Insure Purple Plan clients.
- The store will confirm whether you qualify for the benefit.
- You must hand your existing cellphone (as well as its charger and any other accessories) in to the store, as a trade in for your chosen new cellphone.
- You must agree to accept the trade-in value offered by the store for your existing cellphone. The store will deduct the agreed trade-in value of your existing cellphone from the price of the new cellphone.
- Discovery will contribute the difference between the price of the new cellphone (including VAT) and the trade-in value of your existing cellphone, up to R10 000 (including VAT).
- If the price of your new cellphone (including VAT) is more than the trade-in value of your existing cellphone plus the R10 000 (including VAT) contribution paid by Discovery Insure, you will have to fund the remaining amount owed to the store.

### More information

- Each client that is the planholder of a Purple Plan qualifies for a maximum of one cellphone upgrade every year, subject to a 12-month waiting period between redemptions.
- This benefit is subject to stock availability of the cellphones.
- Your existing cellphone must be in working order.
- Your existing cellphone does not need to be a Samsung or an iPhone.
