Your cover for cancer treatment in 2019

Overview

This document explains how we cover you for cancer treatment on the Oncology Programme for 2019. It tells you about what you need to do when you are diagnosed with cancer and gives you information about our flexible range of options available for all members who have been diagnosed with cancer.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

<table>
<thead>
<tr>
<th>TERMINOLOGY</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Above Threshold Benefit (ATB)</td>
<td>Available on the Executive, Comprehensive and Priority plans Once the claims you have sent to us add up to the Annual Threshold, we pay the rest of your claims from the Above Threshold Benefit (ATB), at the DHR or a portion of it. The Executive and Comprehensive plans have an unlimited ATB, and the Priority plans have a limited ATB.</td>
</tr>
<tr>
<td>Co-payment</td>
<td>We pay service providers at a set Discovery Health Rate. If the accounts are higher than this rate, you will have to pay the outstanding amount from your pocket.</td>
</tr>
<tr>
<td>Day-to-day benefits</td>
<td>These are the available funds allocated to the Medical Savings Account and Above Threshold Benefit, where applicable.</td>
</tr>
<tr>
<td>Deductible</td>
<td>This is the amount that you must pay upfront to the hospital or day clinic. You must pay this amount from your pocket.</td>
</tr>
<tr>
<td>Designated service provider (DSP)</td>
<td>A healthcare provider (for example doctor, specialist, pharmacist or hospital) who we have an agreement with to provide treatment or services at a contracted rate. Visit <a href="http://www.discovery.co.za">www.discovery.co.za</a> or click on Find a provider on the Discovery app to view the full list of DSPs.</td>
</tr>
<tr>
<td>Discovery Health Rate</td>
<td>This is a rate set by us. We pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services at this rate.</td>
</tr>
<tr>
<td>ICD-10 code</td>
<td>A clinical code that describes diseases and signs, symptoms, abnormal findings, complaints, social circumstances and external causes of injury or diseases, as classified by the World Health Organisation (WHO).</td>
</tr>
<tr>
<td>Medical Savings Account (MSA)</td>
<td>Available on the Executive, Comprehensive, Priority and Saver plans We pay your day-to-day medical expenses such as GP and specialist consultations, medicine, except for registered and approved chronic medicine, radiology and pathology from the available funds allocated to your MSA. Any unused funds will carry over to the next year.</td>
</tr>
<tr>
<td>Morphology code</td>
<td>A clinical code that describes the microscopic structure and behaviour and indicates whether a tumour is malignant, benign, in situ, or uncertain (whether benign or malignant) as classified by the World Health Organisation (WHO).</td>
</tr>
<tr>
<td>Prescribed Minimum Benefits (PMBs)</td>
<td>In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of: ▪ An emergency medical condition ▪ A defined list of 270 diagnoses ▪ A defined list of 27 chronic conditions. To access Prescribed Minimum Benefits, there are rules that apply: ▪ Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions ▪ The treatment needed must match the treatments in the defined benefits ▪ You must use designated service providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the</td>
</tr>
<tr>
<td>TERMINOLOGY</td>
<td>DESCRIPTION</td>
</tr>
<tr>
<td>--------------------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Scheme</td>
<td>You may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a DSP, we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment. If your treatment does not meet the above criteria, we will pay according to your plan benefits.</td>
</tr>
<tr>
<td>Emergency medical condition</td>
<td>An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.</td>
</tr>
</tbody>
</table>

The Oncology Programme at a glance

What you need to do before your treatment

- If you are diagnosed with cancer, you need to register on the Oncology Programme.
- In order to register, you or your treating doctor must send us a copy of your laboratory results confirming your diagnosis via email to DCO_Oncology@discovery.co.za
- Your cancer specialist will need to send us your treatment plan for approval before starting treatment. We will only fund your cancer treatment from the Oncology Benefit if we have approved your treatment plan.

We need the appropriate ICD-10 and morphology codes on accounts

All accounts for your cancer treatment must have a relevant and correct ICD-10 and morphology code for us to pay it from the Oncology Benefit. To ensure there is no delay in paying your doctor's accounts, please make sure that your doctor has included the ICD-10 and morphology codes.

The Scheme covers approved and registered treatment methods and medicine only

The Scheme does not cover cancer treatment and related services that have not been approved.

The Scheme does not pay for medicine and treatment that is not approved or registered by the Medicines Control Council of South Africa (MCC). This includes treatment that has not been sufficiently tested as well as herbal or traditional treatments.

The Scheme acknowledges that there may be unique circumstances where members may require these treatments. These requests will be reviewed and considered through an exceptions process. On approval, Southern Rx is the preferred supplier for all unregistered medicines approved from the Oncology Benefit. Southern Rx will require a valid prescription and Medicines Control Council (MCC) authorisation in order to supply the medicine to the patient.
The Scheme covers your approved cancer treatment over a 12-month cycle

Depending on your health plan, once you are registered on the Oncology Programme, the Scheme covers your approved cancer treatment over a 12-month cycle up to the Discovery Health Rate, in accordance with your plan benefits:

- On Executive and Comprehensive plans, we cover the first R400 000 up to 100% of the Discovery Health Rate.
- On Priority, Saver, Smart and Core plans we cover the first R200 000 up to 100% of the Discovery Health Rate.

The 12-month cycle is individualised depending on when you are diagnosed with cancer. If you are newly diagnosed and registered on the Oncology programme for example on 1 April 2019, then 12-month cycle will begin and the cover amount will renew 12 months later on 1 April 2020.

All costs related to your approved cancer treatment including Prescribed Minimum Benefit treatment during the 12-month period, will add up to the 12-month cycle cover amount.

We cover all cancer-related healthcare services up to 100% of the Discovery Health Rate. You might have a co-payment if your healthcare professional charges more than this rate.

If your treatment costs more than the cover amount, we will cover up to 80% of the subsequent additional costs, except if the treatment forms part of Prescribed Minimum Benefits or the Extended Oncology Benefit offered on the Executive and Comprehensive plans, which we will be covered in full.

Chemotherapy, radiotherapy and other healthcare services paid from the Oncology Benefit will be subject to clinical entry criteria, consideration of evidence-based medicine, cost effectiveness and affordability.

Cancer treatment that qualifies for cover as a Prescribed Minimum Benefit (PMB) is covered in full when you use our DSPs. Visit www.discovery.co.za or click on Find a provider on the Discovery app to view the full list of DSPs.

The Oncology Benefit covers treatment provided by your cancer specialist and other healthcare providers including:

- Chemotherapy and radiotherapy
- Technical planning scans
- Implantable cancer treatments, for example prostate or cervical brachytherapy and Gliadel® wafers
- Hormonal therapy related to your cancer
- Consultations with your cancer specialist
- Fees charged by accredited facilities
- Specific blood tests related to your condition
- Materials used in the administration of your treatment, for example drips and needles
- Medicine on a medicine list (formulary) to treat pain, nausea and mild depression as well as other medicine used to treat the side effects of your cancer treatment except schedule 0, 1 and 2 medicines
- External breast prostheses and special bras
- Stoma products
- Oxygen
- Basic radiology and pathology that is appropriate for your condition that you receive before and after treatment, from the date you register on the Oncology Programme
- Radiology requested by your cancer specialist, which includes:
  - Basic x-rays
  - CT, MRI and PET-CT scans related to your cancer
  - Ultrasound, isotope or nuclear bone scans
  - Other specialised scans, for example a gallium scan
- Scopes such as bronchoscopy, colonoscopy and gastroscopy that are used in the management of your cancer. Please note that the Scheme will pay for up to a maximum of two scopes from your Oncology Benefit for the management of your condition, where you are registered on the Oncology Programme.
The Scheme pays for certain treatments from your day-to-day benefits

Other needs related to your condition and treatment that are not covered from the Oncology Benefit will be paid from the available funds in your day-to-day benefits or from your own pocket. This includes, for example, wigs. For members on the Classic Comprehensive Zero MSA Plan, you need to reach the Annual Threshold to have cover for day-to-day medical expenses.

Check what benefits apply to your specific treatment. Refer to the Benefits available on your health plan section.

Additional benefits available on Executive and Comprehensive plans

The Extended Oncology Benefit

The Extended Oncology Benefit gives members on the Executive and Comprehensive plans access to extended approval of specific medicine without a co-payment once their 12-month cycle cover amount is depleted.

The Extended Oncology Benefit provides ongoing cover for a defined list of medicine for specific conditions. Approval is subject to meeting clinical criteria and requests may be reviewed by an external panel for consideration for funding from this benefit.

We will pay up to 100% of the Discovery Health Rate for the specific approved medicine once the R400 000 12-month cycle cover amount is depleted. Once the 12-month cycle cover amount renews, the specific approved medicine will then pay from 12-month cover amount.

We will pay 80% of the Discovery Health Rate for all additional approved items such as consultations, facility fees and pathology and you need to pay the balance. If your healthcare provider charges more than what the Scheme pays, you need to pay the difference from your own pocket. This amount could be more than 20% if your treatment cost is above the Discovery Health Rate.

Defined medicines covered by the Extended Oncology Benefit

Members who meet the requirements have cover for the following oncology medicines:

<table>
<thead>
<tr>

<td>Multiple myeloma</td>
<td>Multiple myeloma; and&lt;br&gt;Previously untreated, and&lt;br&gt;Only in combination with melphalan and prednisone</td>
</tr>
</tbody>
</table>

The Oncology Innovation Benefit

The Oncology Innovation Benefit gives members on the Executive and Comprehensive plans access to a defined list of high-cost medicines and new technologies.

Approval is subject to meeting clinical entry criteria and requests may be reviewed by an external panel for consideration for funding from this benefit.

We will pay up to 75% of the Discovery Health Rate. If your healthcare provider charges more than what we pay, you need to pay the difference from your own pocket. This amount could be more than 25% if your treatment cost is above the Discovery Health Rate. The payment of these claims will accumulate to your R400 000 12-month cycle cover amount at 75% of the Discovery Health Rate.

Once your treatment costs exceed your R400 000 12-month cycle cover amount, we will continue to pay 75% of the Discovery Health Rate for approved medicine.

**Defined medicines are covered from the Oncology Innovation Benefit**

Members who meet the requirements have cover for the following oncology medicines:

<table>

<tr>
<td>Xalkori®</td>
<td>Advanced non-small cell lung carcinoma (NSCLC) whose tumours express PD-L1 as second line therapy</td>
<td>Covered up to 75% of the Discovery Health Rate</td>
</tr>
<tr>
<td>Yervoy®</td>
<td>Advanced non-small cell lung carcinoma (NSCLC) whose tumours are Anaplastic lymphoma kinase positive</td>
<td>Covered up to 75% of the Discovery Health Rate</td>
</tr>
<tr>
<td>Zelboraf®</td>
<td>BRAF V600 mutation-positive unresectable or metastatic melanoma</td>
<td>Covered up to 75% of the Discovery Health Rate</td>
</tr>
</tbody>
</table>
You have cover for bone marrow donor searches and transplants

Bone marrow transplant costs do not add up to the 12-month cycle cover amount for cancer treatment.

On all plans except KeyCare, we cover you for bone marrow donor searches and transplants up to the agreed rate, if you adhere to our clinical protocols. Your cover is subject to review and approval.

The Scheme covers cancer treatment as a Prescribed Minimum Benefit under certain conditions

Most cancer conditions are covered under the Prescribed Minimum Benefits. Cover includes the diagnosis, treatment and costs of the ongoing care of these conditions. Prescribed Minimum Benefits treatment costs add up to the 12-month cycle cover amount. If your treatment costs more than the cover amount we will continue to cover your cancer treatment in full as long as you meet the rules for Prescribed Minimum Benefits payment as described in the definition section on the first page of this document.

The Scheme may pay the out-of-hospital pathology and radiology tests and investigations tests before a diagnosis is confirmed (diagnostic work-up) from your day-to-day benefits. You may request us to review these diagnostic tests to be funded as a PMB once confirmed.

You have full cover in our designated service provider networks and for providers who we have a payment arrangement with

You can benefit by using doctors and other healthcare providers like hospitals, pharmacies, radiologists and pathologists that we have a payment arrangement with, because the Scheme will cover their approved procedures/services in full. If your healthcare provider charges more than what the Scheme pays, you need to pay the difference from your pocket for professional services.

Visit www.discovery.co.za or click on Find a provider on the Discovery app to find healthcare service providers we have a payment arrangement with.

Please use our pharmacy DSP for approved oncology medicines to avoid a 20% co-payment. Speak to your treating doctor and confirm that they are using our DSPs for your medicine and treatment received in rooms treatment or in a treatment facility.

For approved oncology-related medicine where your doctor has provided a prescription, please use a MedXpress Network Pharmacy. To find a MedXpress Network Pharmacy visit www.discovery.co.za or click on Find a provider on the Discovery app.

The Scheme covers you in full if you visit these healthcare providers we have a payment arrangement with:

Discovery Health Medical Scheme, registration number 1125, is regulated by the Council for Medical Schemes and administered by Discovery Health (Pty) Ltd, registration number 1997/013480/07, an authorised financial services provider.

### KeyCare Plans

- Once your plan benefits have run out, then you should use any KeyCare network hospital or contracted network of state facilities.
- If you are on a KeyCare Start plan you must use a state facility as the DSP for chemotherapy and radiation.

### In-hospital specialist consultations

#### Executive Plan and Classic Series
- All specialists who we have a payment arrangement with, and
- Any specialist practicing in a state hospital that is contracted with us.

#### All other health plans
- All specialists who are part of our Premier Rate payment arrangement, and
- Any specialist practicing in a state hospital that is contracted with us.

#### KeyCare Plans
- Any specialist participating in a KeyCare Specialist Network
- Any cancer specialist in the KeyCare ICON network
- Any specialist practicing in a state hospital that is contracted with us
- If you are on a KeyCare Start plan you must use a state facility as the DSP.

### Medicine for your cancer care (Pharmacy)

#### All health plans
- All approved cancer-related medicine must be obtained from our designated pharmacy service provider.

#### PET CT
- All approved PET CT scans should be done within a radiology unit that we have an agreement with.

### You may apply for us to review our decision

We can review our decision when you or your doctor sends us new information about your condition or information that was not sent with the original application. We will review the individual circumstances of the case and confirm the outcome. Please note that application does not guarantee funding approval.

Call us on 0860 99 88 77 for more information on the process.

### You can dispute our funding decisions in certain circumstances

If you disagree with our decision on the PMB cover you requested, there is a formal disputes process that you can follow. Call us on 0860 99 88 77 to request a disputes application form.
EXECUTIVE PLAN

Cancer treatment
We pay for your approved cancer treatment up to R400 000 cover amount within a 12-month cycle, up to the Discovery Health Rate from the Oncology Benefit. Once your treatment costs go over this amount, the Scheme will pay 80% of the Discovery Health Rate for all treatment that falls outside of the Prescribed Minimum Benefits and you need to pay the balance from your pocket. This may be more than 20% if your treatment cost is above the Discovery Health Rate.

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

The Oncology Innovation Benefit
You have cover for a defined list of innovative cancer medicines that meet the Scheme's criteria. The Scheme will pay 75% of the cost of these treatments and you will need to pay 25% of the cost of these treatments.

Extended Oncology Benefit
You also have extended cover in full (once you have depleted your R400 000 cover amount) for a defined list of cancers and treatments that meet the Scheme's criteria.

Approved hospital admissions for administration of chemotherapy or radiotherapy
Claims for the cancer specialist, appropriate pathology, radiology and medicine, as well as radiation therapy add up to the R400 000 amount for your cancer treatment.

Surgery for your cancer
We pay the medical expenses incurred during an approved hospital admission from your Hospital Benefit and not the Oncology Benefit. However, implantable cancer treatments done in hospital such as, but not limited to brachytherapy (for prostate, cervical, and head and neck cancer) and Gliadel® wafers, are covered from the Oncology Benefit.

Bone marrow donor searches and transplantation
We cover you for bone marrow donor searches, stem cell harvesting and transplants up to the agreed rate, if you adhere to our protocols. Your cover is subject to review and approval. Bone marrow transplant costs do not add up to the 12-month cover amount for cancer treatment.

PET-CT scans
We cover PET-CT scans subject to using one of our preferred providers and certain terms and conditions. You need to preauthorise PET-CT scans before having it done.

If we have approved your scan and you have it done it at one of our preferred providers: The Scheme will pay up to the agreed rate if you have not used up the R400 000 amount for your cancer treatment. If you have used up this amount, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference. This amount could be more than 20% if your healthcare provider charges above the Discovery Health Rate.
If your Oncology limit has been depleted and you are on Prescribed Minimum Benefit treatment, we will cover your approved PET-CT scan in full at a PMB PET-CT scan facility.

We pay for wigs from your day-to-day benefits
The Scheme pays wigs from the available funds in your Medical Savings Account and Above Threshold Benefit. Payment is subject to the overall annual limit for external medical items.
## COMPREHENSIVE SERIES

### Cancer treatment

We pay for your approved cancer treatment up to the cover amount of R400 000 over a 12-month cycle from the Oncology Benefit. Once your treatment costs go over this amount, the Scheme will pay 80% of the Discovery Health Rate for all treatment that falls outside of the Prescribed Minimum Benefits and you need to pay the balance from your pocket. This may be more than 20% if your treatment cost is above the Discovery Health Rate.

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

**The Oncology Innovation Benefit**

You have cover for a defined list of innovative cancer medicines that meet the Scheme’s criteria. The Scheme will pay 75% of the cost of these treatments and you will need to pay 25% of the cost of these treatments.

**Extended Oncology Benefit**

You also have extended cover in full (once you have depleted your R400 000 cover amount) for a defined list of cancers and treatments that meet the Scheme’s criteria.

**Approved hospital admissions for administration of chemotherapy or radiotherapy**

Claims for the cancer specialist, appropriate pathology, radiology and medicine, as well as radiation therapy add up to the R400 000 cover amount for your cancer treatment.

**Surgery for your cancer**

We pay the medical expenses incurred during an approved hospital admission from your Hospital Benefit and not the Oncology Benefit. However, implantable cancer treatments done in hospital such as, but not limited to brachytherapy (for prostate, cervical, and head and neck cancer) and Gliadel® wafers, are covered from the Oncology Benefit.

*If you are on the Classic Delta or Essential Delta network option:* You are covered in full at private hospitals and day-clinics in the Delta Hospital Network. For planned admissions at hospitals outside the network, you need to pay an amount of R7 650 upfront to the hospital. This does not apply in an emergency.

**Bone marrow donor searches and transplantation**

We cover you for bone marrow donor searches, stem cell harvesting and transplants up to the agreed rate, if you adhere to our protocols. Your cover is subject to review and approval. Bone marrow transplant costs do not add up to the 12-month month cover amount for cancer treatment.

**PET-CT scans**

We cover PET-CT scans subject to using one of our preferred providers and certain terms and conditions. You need to preauthorise PET-CT scans before having it done. *If we have approved your scan and you have it done it at one of our preferred providers:* The Scheme will pay up to the agreed rate if you have not used up the R400 000 amount for your cancer treatment. If you have used up this amount, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference. This amount could be more than 20% if your healthcare provider charges above the Discovery Health Rate. If your Oncology limit has been depleted and you are on Prescribed Minimum Benefit (PMB) treatment, we will cover your approved PET-CT scan in full at a PMB PET-CT scan facility.

*We pay for wigs from your day-to-day benefits*
The Scheme pays wigs from the available funds in your Medical Savings Account and Above Threshold Benefit. Payment is subject to the overall annual limit for external medical items. If you are on the Classic Comprehensive Zero MSA Plan, you need to pay for these costs yourself until you reach the Annual Threshold to have cover for day-to-day medical expenses from your Above Threshold Benefit.

### PRIORITY SERIES

#### Cancer treatment

We pay for your approved cancer treatment up to R200 000 cover amount within a 12-month cycle from the Oncology Benefit. Once your treatment costs go over this amount, the Scheme will pay 80% of the Discovery Health Rate for all treatment that falls outside of the Prescribed Minimum Benefits and you need to pay the balance from your pocket. This amount may be more than 20% if your treatment cost is above the Discovery Health Rate.

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

#### Approved hospital admissions for administration of chemotherapy or radiotherapy

Claims for the cancer specialist, appropriate pathology, radiology and medicine, as well as radiation therapy add up to the R200 000 cover amount for your cancer treatment.

#### Surgery for your cancer

We pay the medical expenses incurred during an approved hospital admission from the Hospital Benefit and not the Oncology Benefit. However, implantable cancer treatments done in-hospital such as, but not limited to brachytherapy (for prostate, cervical, and head and neck cancer) and Gliadel® wafers, are covered from the Oncology Benefit.

#### Bone marrow donor searches and transplantation

We cover you for bone marrow donor searches and transplants up to the agreed rate, if you adhere to our protocols. Your cover is subject to review and approval. Bone marrow transplant costs do not add up to the 12-month cover amount for cancer treatment.

#### PET-CT scans

We cover PET-CT scans subject to using one of our preferred providers and certain terms and conditions. You need to preauthorise PET-CT scans with us before having it done. -

**If we have approved your scan and you have it done at one of our preferred providers:** The Scheme will pay up to the agreed rate if you have not used up the R200 000 cover amount for your cancer treatment. If you have used up this amount, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference. This amount could be more than 20% if your healthcare provider charges above the Discovery Health Rate.

If your Oncology limit has been depleted and you are on Prescribed Minimum Benefit (PMB) treatment, we will cover your approved PET-CT scan in full at a PMB PET-CT scan facility.

#### We pay for wigs from your day-to-day benefits

The Scheme pays wigs from the available funds in your Medical Savings Account and limited Above Threshold Benefit. Payment is subject to the overall annual limit for external medical items.
SAVER SERIES

Cancer treatment

We pay for your approved cancer treatment up to R200 000 cover amount within over a 12-month cycle from the Oncology Benefit. Once your treatment costs go over this amount, the Scheme will pay 80% of the Discovery Health Rate for all treatment that falls outside of the Prescribed Minimum Benefits further treatment and you need to pay the balance from your pocket. This amount may be more than 20% if your treatment cost is above the Discovery Health Rate.

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

Approved hospital admissions for administration of chemotherapy or radiotherapy

Claims for the cancer specialist, appropriate pathology, radiology and medicine, as well as radiation therapy add up to the R200 000 cover amount for your cancer treatment.

Surgery for your cancer

We pay the medical expenses incurred during an approved hospital admission from your Hospital Benefit and not the Oncology Benefit. However, implantable cancer treatments done in-hospital such as, but not limited to brachytherapy (for prostate, cervical, and head and neck cancer) and Gliadel® wafers, are covered from the Oncology Benefit. If you are on the Classic Delta or Essential Delta network option: You are covered in full at private hospitals and day-clinics in the Delta Hospital Network. For planned admissions at hospitals outside the network, you need to pay an amount of R7 650 upfront to the hospital. This does not apply in an emergency. If you are on the Coastal Saver Plan: You must go to a hospital in one of the four coastal provinces for a planned hospital admission. If you don’t use a coastal hospital, the Scheme will pay up to a maximum of 70% of the hospital account and you need to pay the difference.

Bone marrow donor searches and transplantation

We cover you for bone marrow donor searches and transplants up to the agreed rate, if you adhere to our protocols. Your cover is subject to review and approval. Bone marrow transplant costs do not add up to the 12-month cover amount for cancer treatment.

PET-CT scans

We cover PET-CT scans subject to using one of our preferred services providers and certain terms and conditions. You need to preauthorise PET-CT scans with us before having it done. If we have approved your scan and you have it done at one of our preferred providers: The Scheme will pay up to the agreed rate if you have not used up the R200 000 cover amount for your cancer treatment.

If you have used up this amount, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference. This amount could be more than 20% if your healthcare provider charges above the Discovery Health Rate. If your Oncology limit has been depleted and you are on Prescribed Minimum Benefit (PMB) treatment, we will cover your approved PET-CT scan in full at a PMB PET-CT scan facility.

We pay for wigs from your Medical Savings Account

The Scheme pays wigs from the available funds in your Medical Savings Account. If you run out of funds you need to pay these costs from your own pocket.
SMART SERIES

Cancer treatment
We pay for your approved cancer treatment up to R200 000 cover amount within over a 12-month cycle from the Oncology Benefit. Once your treatment costs go over this amount, the Scheme will pay 80% of the Discovery Health Rate for all treatment that falls outside of the prescribed minimum benefits and you need to pay the balance from your pocket. This amount may be more than 20% if your treatment cost is above the Discovery Health Rate.

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

Designated service provider for members on Essential Smart Plans
You have cover for approved chemotherapy, radiotherapy and other treatment prescribed by your cancer specialist in the full ICON network from the Oncology Benefit. If you use a cancer specialist who is not in the full ICON network, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the balance from your pocket.

Approved hospital admissions for administration of chemotherapy or radiotherapy
Claims for the cancer specialist, appropriate pathology, radiology and medicine, as well as radiation therapy add up to the R200 000 cover amount for your cancer treatment.

Surgery for your cancer
We pay the medical expenses incurred during an approved hospital admission from your Hospital Benefit and not the Oncology Benefit. However, implantable cancer treatments done in hospital such as, but not limited to brachytherapy (for prostate, cervical, and head and neck cancer) and Gliadel® wafers, are covered from the Oncology Benefit.

If you are on the Classic Smart or Essential Smart network option: You are covered in full at private hospitals and day-clinics in the Smart Hospital Network. For planned admissions at hospitals outside the network, you need to pay an amount of R8 800 upfront to the hospital. This does not apply in an emergency.

Bone marrow donor searches and transplantation
We cover you for bone marrow donor searches, stem cell harvesting and transplants up to the agreed rate, if you adhere to our protocols. Your cover is subject to review and approval. Bone marrow transplant costs do not add up to the 12-month cover amount for cancer treatment.

PET-CT scans
We cover PET-CT scans subject to using one of our preferred providers and certain terms and conditions. You need to preauthorise PET-CT scans before having it done.

If we have approved your scan and you have it done at one of preferred providers: The Scheme will pay up to the agreed rate if you have not used up the R200 000 cover amount for your cancer treatment. If you have used up this amount, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference. This amount could be more than 20% if your healthcare provider charges above the Discovery Health Rate.

If your Oncology limit has been depleted and you are on Prescribed Minimum Benefit (PMB) treatment, we will cover your approved PET-CT scan in full at a PMB PET-CT scan facility.

You need to pay for wigs
You need to pay these costs from your pocket.
**CORE SERIES**

**Cancer treatment**

We pay for your approved cancer treatment up to a R200 000 cover amount within a 12-month cycle from the Oncology Benefit. Once your treatment costs go over this amount, the Scheme will pay 80% of the Discovery Health Rate for all treatment that falls outside of the Prescribed Minimum Benefits and you need to pay the balance from your pocket. This amount may be more than 20% if your treatment cost is above the Discovery Health Rate.

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

**Approved hospital admissions for administration of chemotherapy or radiotherapy**

Claims for the cancer specialist, appropriate pathology, radiology and medicine, as well as radiation therapy add up to the R200 000 cover amount for your cancer treatment.

**Surgery for your cancer**

We pay the medical expenses incurred during an approved hospital admission from the Hospital Benefit and not the Oncology Benefit. However, implantable cancer treatments done in-hospital such as, but not limited to brachytherapy (for prostate, cervical, and head and neck cancer) and Gliadel® wafers, are covered from the Oncology Benefit.

*If you are on the Classic or Essential Delta network option:* You are covered in full at private hospitals and day-clinics in the Delta Hospital Network. For planned admissions at hospitals outside the network, you need to pay an amount of R7 650 upfront to the hospital. This does not apply in an emergency.

*If you are on the Coastal Core Plan:* You must go to a hospital in one of the four coastal provinces for a planned hospital admission. If you don't use a coastal hospital, the Scheme will pay up to a maximum of 70% of the hospital account and you need to pay the difference.

**Bone marrow donor searches and transplantation**

We cover you for bone marrow donor searches and transplants up to the agreed rate, if you adhere to our protocols. Your cover is subject to review and approval. Bone marrow transplant costs do not add up to the 12-month cover amount for cancer treatment.

**PET-CT scans**

We cover PET-CT scans subject to using one of our preferred providers and certain terms and conditions. You need to preauthorise PET-CT scans with us before having it done.

*If we have approved your scan and you have it done at one or our preferred providers:* The Scheme will pay up to the agreed rate if you have not used up the R200 000 cover amount for your cancer treatment.

If you have used up this amount, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference. This amount may be more than 20% if your healthcare provider charges above the Discovery Health Rate.

If your Oncology limit has been depleted and you are on Prescribed Minimum Benefit (PMB) treatment, we will cover your approved PET-CT scan in full at a PMB PET-CT scan facility.

**You need to pay for wigs**

You need to pay these costs from your pocket.
**KEYCARE SERIES**

**Cancer treatment**

**KeyCare Start Plan**

The Scheme covers cancer treatment and related costs, if it is a Prescribed Minimum Benefit, in a state facility. We will pay for your cancer treatment from the Oncology Benefit if you have registered on the Oncology Programme and your treatment plan has been approved and meets the terms and conditions of the Scheme.

**KeyCare Core and Plus**

The Scheme covers cancer treatment and related costs, if it is a Prescribed Minimum Benefit. You have cover for approved chemotherapy, radiotherapy and other treatment prescribed by your cancer specialist in the KeyCare ICON network from the Oncology Benefit. If you use a cancer specialist who is not in the KeyCare ICON network, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the balance from your pocket.

The Scheme also covers pathology, radiology, medicine and other approved cancer-related treatment that is provided by healthcare professionals other than your cancer specialist.

The Scheme must approve your treatment before we can pay it from the Oncology Benefit. This treatment must be in line with agreed protocols and medicine lists (formularies).

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no co-payment. This is if you use service providers who we have a payment arrangement with and if they do not charge above the agreed rate.

**Approved hospital admissions for administration of chemotherapy or radiotherapy**

Claims for the oncologist, appropriate pathology, radiology and medicine as well as radiation therapy will add up to the Oncology Benefit. You must use a hospital in the KeyCare Hospital Network.

**Surgery for your cancer**

We pay the medical expenses incurred during an approved hospital admission from the Hospital Benefit and not the Oncology Benefit. You must use a hospital in the KeyCare Hospital Network.

**Bone marrow donor searches and transplantation**

If you are the KeyCare Plus and KeyCare Core Plans, Discovery Health Medical Scheme covers you for local bone marrow donor searches and transplants up to the agreed rate, once we have approved your transplant procedure and treatment.

**PET-CT scans**

We cover PET-CT scans subject to using one of our preferred providers and certain terms and conditions. You need to preauthorise PET-CT scans with us before having it done. If you do not use a preferred provider, the Scheme will pay 80% of the Discovery Health Rate and you need to pay the difference.

Approved PET-CT scans will be paid up to the agreed rate, subject to the use of a PMB PET-CT scan facility in our network.

**You need to pay for wigs**

You must pay the cost for wigs from your pocket.

Complaints process

Discovery Health Medical Scheme is committed to providing you with the highest standard of service and your feedback is important to us. The following channels are available for your complaints and we encourage you to follow the process:

1 | STEP 1 – TO TAKE YOUR QUERY FURTHER:

If you have already contacted the Discovery Health Medical Scheme and feel that your query has still not been resolved, please complete our online complaints form on www.discovery.co.za. We would also love to hear from you if we have exceeded your expectations.

2 | STEP 2 – TO CONTACT THE PRINCIPAL OFFICER:

If you are still not satisfied with the resolution of your complaint after following the process in Step 1 you are able to escalate your complaint to the Principal Officer of the Discovery Health Medical Scheme. You may lodge a query or complaint with Discovery Health Medical Scheme by completing the online form on www.discovery.co.za or by emailing principalofficer@discovery.co.za.

3 | STEP 3 – TO LODGE A DISPUTE:

If you have received a final decision from Discovery Health Medical Scheme and want to challenge it, you may lodge a formal dispute. You can find more information of the Scheme's dispute process on the website.

4 | STEP 4 – TO CONTACT THE COUNCIL FOR MEDICAL SCHEMES:

Discovery Health Medical Scheme is regulated by the Council for Medical Schemes. You may contact the Council at any stage of the complaints process, but we encourage you to first follow the steps above to resolve your complaint before contacting the Council. Contact details for the Council for Medical Schemes: Council for Medical Schemes Complaints Unit, Block A, Eco Glades 2 Office Park, 420 Witch-Hazel Avenue, Eco Park, Centurion 0157 | complaints@medicalschemes.com 0861 123 267 | www.medicalschemes.com
