Performance is quoted from Morningstar as at month end for a lump sum investment using Class A Net Asset Value (NAV) prices with income distributions reinvested (income is reinvested on the reinvestment date). NAV refers to the value of the fund's assets less the value of its liabilities, divided by the number of units in issue. Performance figures are quoted after the deduction of all costs incurred within the fund. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax.

1 - Performance is targeted over a full market cycle and is not guaranteed.

2 - This is the highest or lowest consecutive 12-month returns that the fund has experienced since inception. This is a measure of return volatility.
