

# RETIREMENT FUNDS

# DISCOVERY LIFE TARGET RETIREMENT DATE FUND RANGE **31 OCTOBER 2025**

## **Funds Information**

Portfolio manager Hannes Van Den Berg Asset manager Ninety One Launch date 01 July 2018

#### **Funds Overview**

The Target Retirement Date Funds (TRDF) provide a dynamic investment vehicle to cater for the changes in the investor's retirement savings needs over their lifetime in a single fund.

Each fund is managed to cater for retirement near the stated date. The fund is also managed into the member's postretirement stage, allowing for a seamless transition from accumulation to drawdown. The profile of the fund's holdings thus evolves to reflect the stage of the investor's life.

## **Investment Strategy**

The fund may invest in a variety of asset classes, subject to the limits imposed by Regulation 28 of the Pension Funds Act. The asset allocation within each fund will evolve over time from a focus on growth assets towards income-generating assets.

As the fund approaches the retirement date the manager is able to take advantage of tactical opportunities while making asset allocation transitions.

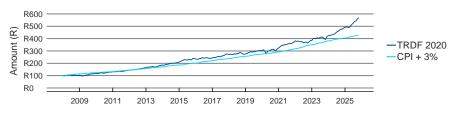

## **Annual Management Fees**

Ranges from 0.80% to 1.50% depending on the total assets the scheme has invested in the fund, with the fee decreasing as total assets increase.

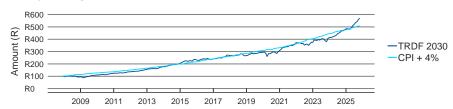

## **Cumulative Performance Graph**

Value of R100 invested at the start of the fund with all income distributions reinvested.

Performance is gross of annual asset management fees. Performance history before 1 July 2018 is based on monthly returns achieved since inception on the unit trust equivalent of each fund. Source: Fund performance - Discovery Life Collective Investments; CPI Data - StatsSA.

1 - Performance is targeted over a full market cycle and is not guaranteed. 2 - This is the highest or lowest consecutive 12-month returns that the fund has experienced since inception. This is a measure of return volatility.

Shorter-dated funds have lower performance targets but offer more stable returns profiles. They are more invested in bonds and cash - assets that usually have lower long-term expected returns but offer more volatility protection for
