# Minimum disclosure document/monthly fund fact sheet

# Camissa Islamic High Yield Fund October 2025

Date of issue: 19 November 2025

# Risk/return profile

actively-managed, pure equity fund High equity fund pursuing marketpursuing strong beating returns capital gains, within Returns expectations prudential constraints Low equity fund pursuing moderate real returns with strong capital protection Islamic High Yield

Low - medium

This fund aims to provide a high income yield and will typically have a strong bias towards yield assets such as sukuks and property, as well as dividend-paying equities. The underlying investments will comply with Shariah requirements as prescribed by the Accounting & Auditing Organisation for Islamic Financial Institutions (AAOIFI). The fund will not invest in any interestbearing instruments.

Medium - high

#### Asset allocation

Low

Risk:

- TER (total expense ratio) = % of average NAV of portfolio incurred as charges, levies and fees in the management of the portfolio for rolling one and three-year periods to 30 September 2025. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs.
- TC (transaction costs) are unavoidable costs incurred in administering the financial products offered by Camissa Collective Investments and impact financial product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER. This is also calculated on rolling one and three-year periods to 30 September 2025.

Unconstrained,

Hiah

**Portfolio Manager** Abdul Davids BCom (Accounting), CFA

**Fund objective** 

A Shariah-compliant fund that aims to provide capital stability and optimal income returns. In order to achieve its objectives, the fund will be using short-term, medium-term and long-term income generating securities as outlined by the constraints of the restrictions for retirement savings.

#### This fund is suitable for

investors invested in retirement annuities, preservation, pension and provident funds. The portfolio will be a primary vehicle for investment by retirement funds that offer individual member choice. Furthermore, the fund is suitable for investors looking for a stable income

# Camissa Islamic High Yield Fund October 2025

<sup>\*</sup> The Sharpe ratio is used to measure how well the return of an asset compensates the investor for the risk taken. The higher the Sharpe ratio the better the Fund's historical risk-adjusted performance has been. This is calculated by taking the difference between the Fund's annualised return and the risk-free (cash) rate, divided by the standard deviation of the Fund's returns.

Pricing: All funds are valued and priced at 15:00 each business day and at 17:00 on the last business day of the month. Forward pricing is used. The deadline for receiving instructions is 14:00 each business day to ensure same day value. Prices are published daily on our website.

The Camissa unit trust fund range is offered by Camissa Collective Investments (RF) Limited [Reg. No. 2010/009289/06], a registered management company in terms of the Collective Investment Schemes Control Act, No 45 of 2002. Camissa Collective Investments is a subsidiary of Camissa Asset Management (Pty) Ltd [a licensed FSP], the investment manager of the unit trust funds and a voting member of the Association for Savings and Investment SA (ASISA).

Unit trusts are generally medium to long-term investments. The value of units will fluctuate and past performance should not be used as a guide for future performance. Camissa does not provide any guarantee either with respect to the capital or the return of the portfolio(s). Foreign securities may be included in the portfolio(s) and may result in potential constraints on liquidity and the repatriation of funds. In addition, macroeconomic, political, foreign exchange, tax and settlement risks may apply. However, our robust investment process takes these factors into account. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Exchange rate movements, where applicable, may affect the value of underlying investments. Different classes of units may apply and are subject to different fees and charges. A schedule of the maximum fees, charges and commissions is available upon request. Commission and incentives may be paid, and if so, would be included in the overall costs. Camissa has the right to close the portfolio to new investors in order to manage it more effectively in accordance with its mandate. Additional information is available free of charge on our website or from Client Service.

<sup>&</sup>lt;sup>1</sup> Performance is quoted from Morningstar as at month-end for a lump sum investment using Class A Net Asset Value (NAV) prices with income distributions reinvested (income is reinvested on the reinvestment date). NAV refers to the value of the fund's assets less the value of its liabilities, divided by the number of units in issue. Performance figures are quoted after the deduction of all costs incurred within the fund. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. All performances are annualised (ie the average annual return over the given time period).
