

Important information

- The Fund is not a bank deposit and is not guaranteed. The Fund invests primarily in deposits, money market instruments and short-term fixed interest securities. These instruments or securities are subject to the solvency of the issuers and can also be exposed to liquidity constraints. The real value of the Fund's investment can be eroded by inflation over time.
- The Fund is subject to interest rate risk. The earnings or market value of the Fund may be affected by changes in interest rates. Any such changes may have a direct effect on the income received by the Fund and its capital value.
- The Fund may use derivatives for hedging and/or efficient portfolio management purposes and may be exposed to significant risk of loss when the use becomes ineffective.
- In adverse situations, the Fund may suffer significant losses. It is possible that the original amount you invested could be lost.
- Investors should not solely rely on this document to make investment decisions.
