

Important information

- The Fund's equity investments could be volatile and subject to high risk of loss. The Fund invests in debt securities that may be subject to credit/counterparty risk, interest rate risk, downgrading risk, sovereign default risk, valuation risk, credit rating risk, liquidity risk, risk associated with investment in Europe, currency risk and higher default risk in high yield / non-Investment Grade / unrated debt securities as well as other risks. Investing in other funds may incur additional costs and charges which may increase the total expense ratio and/or ongoing charges of the Fund.
- The Fund may use derivatives for hedging, efficient portfolio management and/or investment purposes and may be subject to risks associated with derivatives such as credit, leverage, liquidity, valuation, volatility, over-the-counter transaction and counterparty risks. This may result in significant risk of loss when the use becomes ineffective.
- The Inc-2 Share Classes may at the Board of Directors' discretion pay dividends gross of expense and therefore may effectively pay dividend out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. This may result in an immediate reduction of the net asset value per Share.
- Reference Currency Hedged Share Class may be subject to risks arising from uncertainty in interest rate and foreign exchange.
- In adverse situations, the Fund may suffer significant losses. It is possible that the original amount you invested could be lost.
- Investors should not solely rely on this document to make investment decisions.

Global Strategic Managed Fund
