ISIN LU1288964064	BLOOMBERG AVGLHYR LX	ASSET CLASS Fixed Income	NAV 16.95 USD	FUND SIZE USD 3480.74m	AS AT 30 Apr 2026
----------------------	-------------------------	-----------------------------	------------------	---------------------------	----------------------

Fund overview

Objective: To earn income and increase the value of the Shareholder's investment, while outperforming the Bloomberg Global High Yield Excl CMBS & EMG 2% Cap Index over the long term (5 years or more).

Investments: The Sub-Fund invests mainly in high yield bonds issued by corporations anywhere in the world, with an emphasis on North America and Europe.

Specifically, at all times, the Sub-Fund invests at least two-thirds of total net assets (excluding ancillary liquid assets, eligible deposits, money market instruments and money market funds) in bonds that are rated below BBB- by Standard and Poor's and Fitch or Baa3 by Moody's, or are unrated securities considered of equivalent credit quality, based on the Investment Manager's internal assessment.

The Sub-Fund may invest: up to 10% of total net assets in bonds of governmental, quasi-governmental and supranational issuers from developed markets; up to 10% of total net assets in convertible bonds; up to 10% of total net assets in bonds issued by corporations in emerging market countries and up to 30% of total net assets in money market investments. The Sub-Fund may hold equity securities received passively as a result of debt restructuring, provided such holding do not exceed 10% of total net assets.

For full details of the risks applicable to investing in these bonds, please refer to section "Risk Descriptions".

For further information on Sustainability Risk please refer to the Sustainable Finance Disclosure section

Key facts

Sustainable Finance Disclosure

This Fund promotes environmental and social characteristics however does not have a sustainable investment objective. To be eligible for investment, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices and not be excluded by the Investment Manager's ESG Baseline Exclusions Policy. The Investment Manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment processes to measure whether the environmental or social characteristics promoted by the Fund have been achieved. These metrics, known as Principle Adverse Impact's or ("PAI") (as defined by the Sustainable Finance Disclosure Regulation) are the sustainability indicators used by the Fund. There is no guarantee this data will show an annual improvement over time, and therefore the Fund could have worse PAI metrics than previous periods or, compared to the index or other Funds. The Fund does not make any minimum commitment to invest in one or more environmentally sustainable investments. For further information on how the Investment Manager integrates ESG characteristics into its investment approach (including information on its ESG Baseline Exclusions Policy) and how it engages with companies please refer to the prospectus or the Responsible Investment Philosophy or our website, www.avivainvestors.com.

Fund risks

Warning-Investment Risk

The value of an investment and any income from it can go down as well as up. Investors may not get back the original amount invested.

Warning-Credit and interest rate risk

Bond values are affected by changes in interest rates and the bond issuer's creditworthiness. Bonds that offer the potential for a higher income typically have a greater risk of default.

Warning-Derivatives Risk

Investments can be made in derivatives, which can be complex and highly volatile. Derivatives may not perform as expected, meaning significant losses may be incurred.

Warning-Investor in funds

Investments can be made in other funds; this could mean the overall charges are higher.

Warning-Illiquid Securities Risk

Some investments could be hard to value or to sell at a desired time, or at a price considered to be fair (especially in large quantities). As a result their prices can be volatile.

Warning-Sustainability Risk

The level of sustainability risk may fluctuate depending on which investment opportunities the Investment Manager identifies. This means that the fund is exposed to Sustainability Risk which may impact the value of investments over the long term.

Full information on risks applicable to the Fund are in the Prospectus and the Key Investor Information Document (KIID).

Glossary

Annualised performance

An annualised total return is the geometric average amount of money earned by an investment each year over a given time period.

Volatility (%)

A measure of the fund's dispersion of returns. A higher volatility implies that a fund's return is spread over a larger range of values whilst a lower volatility implies that a fund's return is spread over a smaller range of values.

Distribution yield

This reflects the amount that is expected to be distributed over the next 12 months as a percentage of the share price of the fund on the date shown. It does not include the deduction of entry charges and is the gross return before tax on distributions. You may be subject to further tax on your distributions. The yield is not guaranteed.

Entry fee

A one-off charge may be taken from your money before it is invested. The charge is usually a percentage of the amount invested and is additional to the price paid for the units/shares. The entry charge is deducted from the investment before units/shares are bought and is also known as the "initial charge".

Exit charge

A one-off charge levied on redemption of units/shares before the proceeds of your investment are paid out. This is also known as a "redemption charge".

Ongoing charge

The ongoing charge figure represents the costs you can expect to pay annually based on last year's expenses. The ongoing charges figure is made up of various elements such as the fund management fee, professional fees, audit fees and custody fees. Performance fees (if payable) are not included in this figure.

Performance fee

The percentage of any outperformance of the hurdle rate and/or benchmark that will be taken as a performance fee.

Tracking error (%)

A measure of how closely the fund follows its benchmark. A passive fund should have a tracking error close to zero, while an actively managed fund would normally have a higher tracking error.

NAV

NAV is typically an End Of Day valuation using close of market prices to value the individual securities with the portfolio or fund, rolling up to a total portfolio or fund level.

Underlying yield

This reflects the annualised income net of expenses of the fund as a percentage of the share price of the fund on the date shown. It does not include the deduction of entry charges and is the gross return before tax on distributions.

Time to Maturity

This shows the time remaining to maturity of the bonds held by the fund. Generally, the longer the duration of a holding is, the greater the price's sensitivity to any changes in interest rates.

Credit Rating

Independent ratings agencies assign different ratings to bonds depending on the bond issuers' financial strength and their outlook as well as their ability to pay interest on time and meet all of their liabilities. We use appropriate industry recognised ratings as detailed in source notes.

Modified duration

A calculation that expresses the measurable change in the value of a security in response to a change in interest rates - (under analysis).

Spread Duration

The Spread Duration measures the sensitivity of a security's price to changes in its Option Adjusted Spread (OAS) relative to the Treasury Curve.

Management Fee

The management fee is fixed rate charge to cover the costs of managing the investments of the fund. It accrues daily based on a percentage of the fund's net asset value and deducted from the fund's assets.

*Note for UK Investors: This Fund is domiciled in Luxembourg and is authorised by the Commission de Surveillance du Secteur Financier (CSSF). The Fund is recognised in the UK under the Overseas Funds Regime but is not a UK-authorized Fund and therefore **is not subject to UK sustainable investment labelling disclosure requirements**. UK investors should be aware that they can make a complaint about the fund, its management company, or its depositary. However, complaints may not be eligible for resolution by the UK's Financial Ombudsman Service and any claims for losses related to the management company or depositary will not be covered by the Financial Services Compensation Scheme (FSCS). UK investors should consider seeking their own financial advice before making any decisions to invest and refer to the scheme prospectus for further information.*

Important information

THIS IS A MARKETING COMMUNICATION

The source for all performance, portfolio and fund breakdown data is Morningstar unless indicated otherwise.

All data is as at the date of the Factsheet, unless indicated otherwise.

For share classes that have not yet completed 5 years, the cumulative performance chart will start from the first full month.
