

Discovery Life Escalator - Discovery Global Multi-Asset Fund

Minimum Disclosure Document

31 May 2025

Fund Detail

Investment manager	Discovery Life Limited
Launch date	27 September 2012
Risky asset date change ²	21 September 2020
Risky asset benchmark	60% MSCI AC World index and 40% FTSE World Government Bond Index
Risky asset classification	Global - Multi-Asset - High Equity Sector
Fund size	R44 913 415
TRI price	247.08c
Protection level (based on TRI)	203.10c
Income declaration	Rolled up within unit price
Annual protector premium ¹	0.60%
Performance fee	None
TER (including protector premium)	2.18%
Transaction cost	0.05%
Total investment charges (TIC)	2.23%
ISIN	ZAE000169207

Notes
1. The premiums quoted above exclude the underlying investment manager charges.
2. The investment policy and name of the fund's risky asset was changed on this date. Prior to this date, the risky asset was called the Discovery Global Balanced Fund of Funds. The benchmark, ASISA sector and management fees of the risky asset remain the same, but now the fund operates as a standard fund rather than a fund of funds. The risky asset still provides a diverse, global fund.

Fund Profile and Strategy

The Discovery Life Escalator Funds are investment funds underlying the investment linked insurance policies issued, or underwritten, by Discovery Life Limited, which have a unique structure that provides investors with protection against downward market movements as well as unlimited growth potential in rising markets. The protection level on each Escalator unit is at least 80% of the highest value the Escalator unit price has ever reached. The guarantee is provided by Deutsche bank, not Discovery Life. This means that the policyholder bears the risk if Deutsche Bank is unable to meet the guarantee for any reason whatsoever.

The Discovery Life Escalator - Discovery Global Multi-Asset Fund is calculated with reference to an apportionment between the underlying Discovery Global Multi-Asset Fund Class A (where Discovery Life Collective Investments (Pty) Ltd is the CIS manager), cash, and a put option (which Discovery Life has bought from Deutsche Bank). The ratio between the assets is dynamically adjusted on a daily basis. As the unit price of the Discovery Global Multi-Asset Fund Class A increases the apportionment to this fund increases and vice versa. This rebalancing is done automatically based on a mathematically defined algorithm managed by Discovery Life and Deutsche Bank.

Risk Profile

Illustrative Cumulative Performance for a R100 Lump Sum Investment Since Launch

Historical Performance Table - Since Launch

Period	Fund	Protection
1 year (Ann.)	1.33%	2.13%
3 year (Ann.)	4.05%	1.10%
5 year (Ann.)	2.08%	1.95%
10 year (Ann.)	4.15%	4.37%
Since Launch (Ann.)	7.41%	7.64%
Since Launch (Cum.)	147.66%	154.46%

Risk Statistics Table - Since Launch

Statistic	Fund
Volatility (Last 3 Years Ann.)	10.61%
Maximum Drawdown	-13.24%
Best Annual Return	37.07%
Worst Annual Return	-8.52%
Sharpe Ratio (Rf = 0%)	0.73
Information Ratio	-0.03

Performance figures are calculated using the Total Returns Index (TRI) for a R100 lump sum investment made at launch. The TRI is calculated by purchasing and reinvesting units on the declaration date at the Net Asset Value (NAV) price as at the reinvestment date. The TRI on any day is adjusted for NAV movements and dividend declarations. The performance is shown as net of asset management fee. Investment performance is for illustrative purposes only. Investment performance is calculated by taking the actual applicable initial fees, and all ongoing portfolio fees, into account, for the value shown. Income is reinvested on the reinvestment date.

Underlying Fund Investment Policy

The Discovery Global Multi-Asset Fund aims to provide long-term income and capital growth through investment in a diversified fund of global assets. The Fund will invest in a flexible multi-asset approach in a manner that is unconstrained by geography, size, or asset class with a maximum equity exposure of 75%.

In order to achieve this objective, the fund will, invest in listed and unlisted equity securities, non-equity securities, listed and unlisted financial instruments, assets in liquid form and other assets as allowed by the Act. The fund has full asset class flexibility.

The fund may also include listed and unlisted financial instruments for the exclusive purpose of hedging exchange rate risks.

Specific Underlying Fund Risks

Please note that following market falls, the Escalator Fund may have a high allocation to cash. This will result in a low exposure to movements in the underlying fund which means the Escalator will not fully participate in sharp market rises following such a market drop, should they occur.

Currency exchange risk - Changes in the relative values of different currencies may adversely affect the value of the Fund's investments and any related income.

Default risk - There is a risk that the issuers of fixed income investments (e.g. bonds) may not be able to meet interest payments nor repay the money they have borrowed. The worse the credit quality of the issuer, the greater the risk of default and therefore investment loss.

Derivatives risk - The use of derivatives may increase the overall risk in the Fund by multiplying the effect of both gains and losses. This may lead to large changes in the value of the Fund and potentially large financial loss.

Developing market risk - Some of the countries in which the Fund invests may have less developed legal, political, economic and/or other systems. These markets carry a higher risk of financial loss than those in countries generally regarded as being more developed.

Interest rate risk - The value of fixed income investments (e.g. bonds) tends to decrease when interest rates and/or inflation rises.

Multi-asset investment risk - The Fund is subject to possible financial losses in multiple markets and may underperform more focused funds.

Third party operational risk - The Fund's operations depend on third parties. Investors in the Fund may suffer disruption or financial loss in the event of third-party operational failure.

Tel number	011 217 6600
Website	www.standardchartered.com/za

The trustee is registered as a trustee of collective investment schemes, in terms of the Collective Investment Schemes Control Act.

FAIS and Insurance Disclosures

This information is not advice, as defined and contemplated in FAIS. The value of a fund can go down, as well as up, as a result of changes in the value of the underlying investments, or of currency movement. An investor may not recoup the full amount invested. The policy benefits of the linked policies are determined solely on the value of the assets, or categories of assets, to which the policies are linked. Past performance is not necessarily an indication of future performance. The performance figures of the investment fund are based on a lump sum investment, over the respective periods shown. The performance figures of the investment fund underlying the investment linked insurance policies will differ from the performance returns of the policies, due to Discovery Life's administration and policy fees (if applicable). The underlying funds may levy their own charges. The value and performance figures of the investment fund are based on valuation prices received from Deutsche Bank. Actual trade prices may differ marginally. Forecasts, illustrations, hypothetical data, and examples are for illustrative purposes only, and are not guaranteed to occur. Any projections contained in the information are estimates only, and are not guaranteed to occur. The projections are subject to market influences and contingent upon matters outside the control of the company, so may not be realised in the future. Please be advised that there may be supervised representatives. The complaints policy and conflict of interest management policy can be found on the website: www.discovery.co.za. The assets underlying the Discovery Life Escalator Funds are held on Discovery Life's balance sheet, except for the instrument that provides the 80% guarantee, which is provided by Deutsche Bank. This means that the policyholder bears the risk, if the Discovery Life Escalator Fund falls below 80% of the highest value ever reached (the guarantee level), and Deutsche Bank is unable to meet the guarantee, for any reason whatsoever. The cash component is invested in Discovery Life's Discovery Corporate Cash Fund, as well as various bank accounts. The fee on the Discovery Corporate Cash Fund is 0.4% per annum. The full set of insurance disclosures are referenced in the policy documents, and other related documents.

Total Investment Charge

Total expense ratio (TER) is the percentage of the value of the fund that was incurred as expenses relating to the administration (charges, levies and fees) of the fund. TER is calculated over rolling 3 years (or since inception, where applicable), and is annualised, to the most recent calendar quarter-end. A higher TER does not necessarily imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

Transaction costs (TC) is the percentage of the value of the fund that was incurred as costs relating to the buying and selling of the assets underlying the fund. Transaction Costs are a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation, as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager, and the TER. calculations are based on actual data, where possible, and best estimates, where actual data is not available.

Total investment charges (TIC) is the percentage of the value of the fund that was incurred as costs relating to the investment of the fund. It is the sum of the TER and TC.

CIS Disclosures of Underlying Fund

Investment Manager of Underlying Fund

Ninety One SA (Pty) Ltd

Registration number	1984/011235/07
FSP number	587
Physical address	36 Hans Strijdom Avenue, Foreshore, Cape Town, 8001
Telephone number	0860 110 161
Website	www.ninetyone.com

Ninety One SA is an authorised FSP, as a discretionary FSP, in terms of Section 8 of FAIS.

Administrative FSP

Discovery Life Investment Services (Pty) Ltd

Registration number	2007/005969/07
FAIS licence number	30277
Pension fund number	24/457
Postal address	PO Box 653574, Benmore, 2010
Physical address	1 Discovery Place, Sandton, 2196
Telephone number	0860 67 57 77
Website	www.discovery.co.za

Discovery Life Investment Services (Pty) Ltd (Discovery Invest) is an authorised FSP, licensed for Category I (advice and non-discretionary intermediary services), Category II (discretionary FSP), and Category III (administrative FSP). The investment funds underlying the investment linked insurance policies issued by Discovery Life may be administered on the Discovery Invest administrative platform.

Performance Returns

Lump-sum performance returns are being quoted. Income distributions, prior to deduction of applicable taxes, are included in the performance calculations. NAV to NAV figures have been used for the performance calculations, as calculated by the manager at the valuation point defined in the deed, over all reporting periods. Investment performance calculations are available for verification upon request by any person. Reinvestment of income is calculated on the actual amount distributed per participatory interest, using the ex-dividend date NAV price of the applicable class of the fund, irrespective of the actual reinvestment date. The performance is calculated for the fee class. The individual investor performance may differ, as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. The rate of return is calculated on a total return basis, and the following elements may involve a reduction of the investor's capital: interest rates, economic outlook, inflation, deflation, economic and political shocks or changes in economic policy. Annualised returns are period returns re-scaled to a period of one year. This allows investors to compare returns of different assets that they have owned for different lengths of time. All period returns greater than one year have been annualised. Returns for periods less than one year have not been annualised. A cumulative return is the aggregate amount an investment has gained or lost over time, independent of the period of time involved. Actual annual figures are available to the investor on request. Illustrative investment performance is for illustrative purposes only.

Additional Information

For additional information on the fund, refer to the following documents, available on our website www.discovery.co.za, from your financial adviser, or on request from the manager, free of charge.
