Key facts

Portfolio manager: Clyde Rossouw
Fund size: ZAR 90.4bn
Fund inception date: 02.05.97
H Inc ZAR class unit inception date: 01.10.12
Domicile: South Africa
Sector: ASISA SA Multi-Asset High Equity
'H' class unit dealing currency: ZAR

'H' class unit charges

Initial fund fee: 0.00%
Minimum annual management fee: 0.35%
Maximum annual management fee: 1.85%
Total expense ratio (TER): 1.60%
Transaction cost (TC): 0.02%
Total investment charge (TIC): 1.62%

Inclusive in the TER of 1.60%, is a performance fee of 1.16%. Fee rates are shown excluding VAT. TER, TC and TIC are shown including VAT. The annual management fee is calculated daily. The daily performance fee depends on fund performance over the previous 12 months relative to CPI + 2%. When gross performance equals the fund's target of CPI + 6%, the fee rate is 0.98% p.a. For every percentage outperformance or underperformance of CPI + 6%, the performance fee is proportionately increased or decreased by 0.2%, subject to a minimum fee of 0.35% and a maximum fee of 1.85%.
Fixed fee unit classes are available for this fund, for further information, visit www.ninetyone.com/feechanges

Other information

Valuation: 16:00 (17:00 month-end) SA Time
Transaction cut-off: 16.00 SA Time (forward pricing)
Minimum investment: LISPs or ZAR10,000,000
ISIN: ZAE000171468

Fund Features

The fund has a focus on capital growth and absolute returns through active asset allocation and is managed in accordance with Regulation 28 of the Pension Funds Act 24 of 1956

Seeks to provide lower volatility than traditional balanced funds, but with sufficient equity to provide scope for capital growth over the medium to long term

Stock selection is oriented towards a quality approach, seeking to deliver consistent performance through the business cycle

Objectives and investment policy summary

The Fund aims to provide capital growth

The Fund invests in equities (e.g. company shares), cash and bonds (contracts to repay borrowed money which typically pay interest at fixed times). The Fund will manage its investments in these asset classes in an active and aggressive style. The Fund can invest up to 75% of its value in equities

Other investments may include the units of other funds (including foreign funds) and derivatives (financial contracts whose value is linked to the price of an underlying asset)

Total	30.6

Specific fund risks

Default: There is a risk that the issuers of fixed income investments (e.g. bonds) may not be able to meet interest payments nor repay the money they have borrowed. The worse the credit quality of the issuer, the greater the risk of default and therefore investment loss.
Developing Market (excluding SA): Some of the countries in which the Fund invests may have less developed legal, political, economic and/or other systems. These markets carry a higher risk of financial loss than those in countries generally regarded as being more developed.
Foreign Investment: Investing in foreign securities may be subject to specific material risks pertaining to overseas jurisdictions and markets, including (but not limited to) potential constraints to local liquidity and the repatriation of funds, macroeconomic, political, tax, settlement risks, potential limitations on available market information and foreign exchange or currency fluctuations.
Interest rate: The value of fixed income investments (e.g. bonds) tends to decrease when interest rates rise.

Glossary Summary

Annualised performance: Annualised performance is the average return per year over the period.
Duration: This is a measure of risk for funds which invest in bonds as it predicts the sensitivity of the value of a fund's portfolio given changes in interest rates. The higher the value the greater the volatility of the fund's performance resulting from changes to interest rates. The Modified duration is shown.
Maximum drawdown: The largest peak to trough decline during a specific period of an investment.
NAV: The Net Asset Value (NAV) represents the value of the assets of a fund less its liabilities.
Risk profile: A number on a scale of 1 to 7 based on how much the value of a fund has fluctuated over the past 5 years (or an estimate if the fund has a shorter track record). A rating of 1 represents the lower end of the risk scale with potentially lower rewards available whilst a rating of 7 reflects higher risk but potentially higher rewards.
Total Expense Ratio: TER includes the annual management fee, performance fee and administrative costs and includes VAT but excludes portfolio transaction costs (except in the case of an entry or exit charge paid by a fund when buying or selling units in another fund) expressed as a percentage of the average daily value of the Fund calculated over a rolling three year period (or since inception where applicable) and annualised to the most recently completed quarter. Where funds invest in the participatory interests of foreign collective investment schemes, these may levy additional charges which are included in the relevant TER. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs.
Transaction cost: Transaction costs are a necessary cost in administering the Fund and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER.Calculations are based on actual data where possible and best estimates where actual data is not available. Transaction costs are inclusive of VAT.
Total investment charge: This is the sum of the TER and TC.
Volatility: The amount by which the performance of a fund fluctuates over a given period.

Important information

All data as at 30.09.2026. Date of Publication: 22.10.2026. Any changes effective after publication will appear in the next update. This document must be read in conjunction with the relevant General Investor Report. All information provided is product related and is not intended to address the circumstances of any particular individual or entity. We are not acting and do not purport to act in any way as an advisor or in a fiduciary capacity. No one should act upon such information without appropriate professional advice. Ninety One Fund Managers SA (RF) Pty Ltd, "the Management Company", is registered as a management company under the Collective Investment Schemes Control Act 45 of 2002. The Management Company has outsourced its portfolio management to Ninety One SA (Pty) Ltd, a member of the Association for Savings and Investment SA (ASISA) and distribution to Ninety One Investment Platform (Pty) Ltd which are authorised financial services providers. Collective Investment Schemes (CIS) are generally medium to long-term investments the value of which may go down as well as up. Past performance is not necessarily a guide to future performance. The Management Company does not provide any guarantee either with respect to the capital or the return of a portfolio. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Where performance fees are charged, these are applied daily. Annualised performance figures represent the geometric average return earned by the fund over the given time period, expressed as a percentage. The performance shown is for the portfolio as a whole, but individual performance may differ depending on factors such as initial fees, date of actual investment and reinvestment of earnings and withholding tax where applicable. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the fund including any income accruals less permissible deductions from the fund. There are different fee classes of units on the fund and the information presented is for the most relevant share class. Fund prices are published on business days on the Ninety One website at www.ninetyone.com, are available in select media publications and on request from the Management Company. Your advisor may charge additional fees. Additional advisor fees may be paid and if so, are subject to the relevant Financial Advisor and Intermediaries Services disclosure requirements. The Management Company can choose to close the fund to new investors or stop additional investments by existing investors, if needed, to ensure the fund remains in line with its investment mandate or objectives. If there are too many withdrawals from the fund, it could impact its liquidity. In such cases, withdrawal instructions may be processed differently to safeguard the fund. A feeder fund is a portfolio that invests in a single portfolio of a collective investment scheme, which levies its own charges, and which could result in a higher fee structure for the feeder fund. For more information on the fund, including application forms, all applicable fees, and charges including initial and management fees and reports, free of charge, visit our website or please contact us.
