

SESFIKILE BCI PROPERTY FUND (B2)

Minimum Disclosure Document (Fund Factsheet)

FUND OBJECTIVE

The Sesfikile Boutique Collective Investments Property Fund Class B2 is a portfolio which aims to deliver both a high income yield as well as capital growth over the medium to long term. Our objective is to deliver total returns (consisting of income and capital) that outperform the FTSE/JSE All Property Index (J803) over a 3 to 5 year investment horizon. The fund is suitable for investors who are looking for a viable property component to a balanced portfolio; or alternatively an investor looking for a growing income stream but is willing to be exposed to an element of capital volatility. The portfolio may from time to time invest in listed and unlisted financial instruments.

SESFIKILE BCI PROPERTY FUND (B2)

Minimum Disclosure Document (Fund Factsheet)

FUND STRATEGY

This fund aims to outperform the benchmark by investing in listed property companies with sustainable income growth underpinned by strong property fundamentals. In addition to these core holdings, the fund makes use of tactical stock selection to capitalise on short-term market mispricing and corporate action opportunities.

INVESTMENT POLICY

The policy is to invest in JSE listed Real Estate Investment Trusts ("REITs") or listed property companies. The investment manager will also be allowed to invest in financial instruments and cash as allowed by the act from time to time in order to achieve its investment objective. Furthermore, and as legislation permits, the manager shall be permitted to invest in offshore listed property investments on behalf of the Sesfikile BCI Property Fund.

WHY CHOOSE THIS FUND

The fund offers active best of breed management within a sector that offers income and capital growth over time:

- All shares are subject to rigorous, in-depth research;
- While ultimate portfolio construction adheres to Sesfikile's unique "Four D" approach:
 - Our passion for direct property
 - Getting stuck in the detail
 - Understanding the broader drivers of property investment
 - Taking views on corporate action deals and finding the hidden potential in the sector.
- Through extensive experience in the listed property sector, we believe our team has the ability to identify the key differentiators to performance and ultimately the factors that impact total returns for clients. Importantly, given our commitment to capping the total size of assets under management we will remain nimble enough to execute on investment ideas effectively over the medium to long term.
- Since inception, our investment process has been able to deliver consistent low-risk outperformance of the benchmark on an after-fee basis. Although this is no guarantee of future performance, we are confident in our robust investment and risk management process and alignment of interest with clients will consistently steer us towards identifying value added investment opportunities.

FUND MANAGER INFORMATION

Evan Jankelowitz, Mohamed Kalla and Naeem Tilly co-manage the Sesfikile BCI Property Fund.

The Sesfikile Investment Team, which consists of five individuals, boasts combined experience of more than 70 years in the listed property sector, making them amongst the most experienced teams in the market. Since inception, the Team has been able to deliver consistent benchmark and peer relative outperformance.

MARKET REVIEW

The listed property sector continued to build on its strong showing from the prior month, with the FTSE/JSE All Property Index (ALPI) climbing 3.15%, helped in part by a 40bps rally in the 10-year government bond yield, which ended May at 10.19%. South African equities advanced in May, buoyed by improving sentiment both locally and abroad. The FTSE/JSE All Share Index (ALSI) rose 3.14% for the month, driven by broad-based gains across the various sub-indices, with industrials (+4.3%) leading the charge, followed by resources (+3.5%) and financials (+3.1%).

The domestic macroeconomic landscape this month was broadly supportive, underpinned by easing political risks, with the GNU gaining renewed confidence through the finalisation of the national budget alongside a somewhat constructive meeting between the South African and US Presidents. Inflation remained contained and well within the SARB's target range, with headline CPI inching up to 2.8% in April and core inflation easing to 3.0%, though consumer pressure showed through a sharp slowdown in retail sales growth to 1.5% YoY in March. Against this backdrop, the SARB cut the repo rate by 25 basis points to 7.25% at its May meeting, cumulating in a 100 basis point cut since 2024, reflecting a pivot towards a dovish stance supported by lower oil prices, a stronger rand, and reduced uncertainty. The MPC also signaled a shift in policy focus by introducing a scenario targeting a lower 3.0% long-term inflation rate from the SARB's initial inflation target of between 3% and 6%. Global markets rebounded in May, recovering from the Liberation Day sell-off as investor sentiment improved following a softening in Trump's tariff stance. Although volatility persisted, the shift in tone helped fuel a strong rally, particularly after mid-month when the US and China agreed to reduce tariffs by a combined 115% for a 90-day period, a move that significantly eased fears of escalating trade tensions. This de-escalation supported risk appetite and drove equity markets higher.

The local listed property sector extended its strong run in May, with the FTSE/JSE All Property Index (ALPI) gaining 3.15%. Earnings releases and corporate activity broadly supported the rally. Hammerson advanced 10.6% after posting an encouraging trading update, wherein it increased its earnings guidance and concluded leases 59% ahead of the previous passing rent and 12% ahead of the market rental. Equites Property Fund was up 10.0% after reporting strong FY24 results, supported by solid portfolio fundamentals, R2.4 billion in disposals, and valuation uplifts across SA and UK assets—leaving its loan-to-value (LTV) ratio at 36% and guiding to 5–7% distributable income per share (DIPS) growth. Spear REIT rose 9.1% on the back of a 3% rise in DIPS, 4.2% rental reversions, and a low LTV of 27% while announcing an R182 million industrial acquisition to be funded through a share issue. MAS Real Estate (+7.3%) and Hyprop (+3.3%) benefited from corporate action – PK Investments, MAS' development joint venture partner, made a voluntary offer to existing shareholders, which was followed up with a competing indicative offer from Hyprop. Watch this space. Offshore counters NEPI Rockcastle (-3.03%), Supermarket Income REIT (-2.02%), Assura (-1.57%), and PHP (+0.92%) underperformed the benchmark owing in some part to the stronger ZAR against the GBP (2.3%) and EUR (3.1%).

Looking ahead to 2025, we maintain a constructive view underpinned by an improving earnings growth trajectory and stronger balance sheets, which could pave the way for a return to acquisitive activity after years of muted deal flow. While low double-digit total returns remain within reach, we remain mindful of potential headwinds. Chief among these are the possible inflationary and growth-related consequences of Trump's proposed tariffs and the associated short-term volatility they may trigger.

TER AND TRANSACTION COST (INCL. VAT)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2024, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 March 2025.
