

# Smoke detector

Powered by Discovery Insure

Discovery 911's offering includes a smoke detector that allows you to get quick firefighting assistance in the event of a fire-related emergency in your home.

## How we keep clients safe with Discovery 911's smoke detector

If there is a fire-related emergency, the following will happen to keep you safe:

### SOUND AN ALARM

In the event of a fire-related emergency, the smoke detector will sound an alarm.

### ALERT THE OWNER

You will be notified of a fire-related emergency through the Discovery Insure app. You can confirm if this is a real emergency.

### DISPATCH RESPONDERS

In the event of a real emergency or if we cannot reach you, our emergency response team will alert fire response services, which includes Fire Force in the Johannesburg area and Fidelity's SecureFire in other areas.

## Backed by trusted partners

Our partners in fire response are leaders in their fields and provide nationwide coverage.

### Fire Force

Emergency service specialising in residential incidents.

### SecureFire

South Africa's largest private security network nationwide.

## HOW TO INSTALL THE SMOKE DETECTOR?

The device can be installed easily by you at home. Easy to follow instructions are included in the box.

## THE DISCOVERY 911 SMOKE DETECTOR OFFERS THE FOLLOWING UNIQUE SAFETY FEATURES:

### Two-year battery

Operates continuously without charging or wiring

### Built-in siren

Loud, local alarm alongside remote alert

### Sigfox 0G network

Works during load shedding and GSM outages
