About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Co-payment	This is an amount that you need to pay towards a healthcare service. The amount can vary by the type of covered healthcare service, place of service, the age of the patient or if the amount the service provider charges is higher than the rate we cover. If the co-payment amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service.
Day-to-day benefits	These are the available funds allocated to the Medical Savings Account (MSA) and Above Threshold Benefit (ATB). Depending on the plan you choose, you may have cover for a defined set of day-to-day benefits. The level of day-to-day benefits depends on the plan you choose.
Deductible	This is the amount that you must pay upfront to the hospital or day clinic for specific treatments/procedures or if you use a facility outside of the network. If the upfront amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service.
Discovery Health Rate	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
Discovery Home Care	Discovery Home Care is an additional service that offers you quality home-based care in the comfort of your home for healthcare services like IV infusions, wound care, post-natal care and advanced illness care.
Emergency medical condition	An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.
Maternity Benefit	Comprehensive benefits for maternity and early childhood that cover certain healthcare services before and after birth at the Discovery Health Rate. This cover does not affect your day-to-day benefits. It is important to note that the maternity and early childhood benefits will only be effective from the date of activation. Please read the rest of the document for more details.
Medical Savings Account (MSA)	Available on the Executive, Comprehensive, Priority and Saver plans We pay your day-to-day medical expenses such as GP and specialist consultations, acute medicine, radiology and pathology from the available funds allocated to your MSA. Any unused funds will carry over to the next year.

We pay for newborn screening up to 100% of the Discovery Health Rate from your Medical Savings Account (MSA), where applicable. Newborn screening does not accumulate or pay from the Above Threshold Benefit. If your plan does not have a MSA, or you have run out of funds, you will have to pay these costs.

We cover medically necessary circumcisions from the Hospital Benefit

If the procedure is being done in hospital, please preauthorise by calling 0860 99 88 77. If it is done in the doctor's rooms for specified conditions, you don't need to preauthorise the procedure.

Circumcisions that are not medically necessary are covered from the available funds in your day-to-day benefits, where applicable. If your plan does not have day-to-day benefits or you have run out of funds, you have to pay these costs.

There are certain items we do not cover

- Mother and baby packs that hospitals supply
- The bed-booking fee that some hospitals may require you to pay
- Your lodging or boarding fees if your baby needs to stay in hospital for longer and you choose to stay on.

Getting the most out of your maternity benefits

Preauthorise the delivery of your baby

It is important to notify us of your pregnancy so that you always know how we cover you for your pregnancy-related healthcare expenses, whether these are received in- or out-of-hospital.

You can preauthorise your hospital admission for the birth of your baby online on the My Pregnancy programme on www.discovery.co.za or on the Discovery app.

You can also call us on 0860 99 88 77 to preauthorise your delivery. When you do, remember to have the following information at hand:

- Date of the admission
- Name or practice number of the hospital or clinic
- Name and practice number of the treating doctors and anaesthetist (if available)
- ICD-10 code from your treating doctor (this is an alphanumeric code that describes your diagnosis (e.g. pregnancy))
- RPL code from your treating doctor (this is a procedure code that describes how you plan to deliver your baby).

Use healthcare providers who we have a payment arrangement with for full cover in hospital

You have full cover for in-hospital claims from healthcare providers who we have a payment arrangement with, and up to the Discovery Health Rate (based on your plan type) for other healthcare professionals.

Visit www.discovery.co.za or click on Find a healthcare provider on the Discovery app to find a healthcare provider we have a payment arrangement with.

Use a hospital in our network if you are on the Classic Smart Comprehensive, Smart, KeyCare, Coastal or Delta plans

If you are on a Classic Smart Comprehensive, Smart, KeyCare, Coastal or Delta plan, you must use a network hospital for your childbirth to avoid a co-payment or deductible, or to avoid having to pay for the entire account yourself. This does not apply if the admission is a medical emergency. For more information on the network hospitals for your plan type, visit www.discovery.co.za Medical Aid > Find a healthcare provider.

Adding newborns to Discovery Health Medical Scheme

Register your baby within 30 days of the birth

To ensure all medical treatment for your baby is covered, it is advisable to register your baby on your medical aid within 30 days from their date of birth by completing the *Application for registration of newborn baby* form. Up-to-date forms are always available on www.discovery.co.za under Medical Aid > Find a document

Your baby will be registered from their date of birth, however, contributions will only be charged from the first day of the month following the birth.

We allow up to 90 days for your baby to be added, after which we may apply certain conditions to your baby's registration with the Scheme. If the baby is added after 90 days from birth or you want cover to start on any other day after the date of birth, we may apply certain conditions to your baby's membership with the Scheme.

Include your baby's ID number

It is compulsory to include a newborn's ID number when you add your newborn baby to your Discovery Health Medical Scheme membership. Having the identity number will ensure we keep up-to-date and complete records for your health policy, which is important for delivering the best service.
