DISCOVERY HEALTH MEDICAL SCHEME

COVER FOR DENTAL TREATMENT

Overview

This document explains the cover for dental treatment. It gives you details about how Discovery Health Medical Scheme defines and pays for dental treatment in the dentist's or dental specialist's rooms, in hospital or at a day clinic.

You'll also find information about your cover for severe dental surgery as part of the Severe Dental and Oral Surgery Benefit.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Above Threshold Benefit (ATB)	Available on the Executive, Comprehensive and Priority plans Once the day-to-day claims you have sent to us add up to the Annual Threshold, we pay the rest of your day-to-day claims from the Above Threshold Benefit (ATB), at the Discovery Health Rate (DHR) or a portion of it. The Executive and Comprehensive plans have an unlimited ATB, and the Priority plans have a limited ATB.
Annual Threshold	Available on the Executive, Comprehensive and Priority plans We set the Annual Threshold amount at the beginning of each year. The number and type of dependants (spouse, adult or child) on your plan will determine the amount. The Annual Threshold is an amount that your claims need to add up to before we pay your day-to-day claims from the Above Threshold Benefit (ATB).
Basic Dental Treatment	We define basic dental treatment as the diagnosis, prevention and treatment of diseases of the teeth, gums and related structures of the mouth.
Day clinic	This is a healthcare facility in which patients spend part of the day under medical supervision but do not stay overnight.
Day-to-day benefits	These are the available funds allocated to the Medical Savings Account (MSA) and Above Threshold Benefit (ATB), where applicable. Depending on the plan you choose, you may have cover for a defined set of day-to-day benefits. The level of day-to-day benefits depends on the plan you choose.
Deductible	This is the amount that you must pay upfront to the hospital or day clinic for specific treatments/procedures. If this amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service.
Dental appliances, their placement and orthodontic treatment	Dental appliances, their placement and orthodontics are subject to a limit and pay from the day-to-day benefits. Related accounts for orthognathic surgery are also funded from the day-to-day benefit and are subject to this limit. This limit is only applicable on certain plans. Dental appliances include crowns, dentures, bridges, clasps, veneers, implants, inlays or onlays and pontics. Professional fees, laboratory fees and the cost of the components used in placing dental appliances add up to the limit.
Discovery Health Rate (DHR)	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
Medical Savings Account (MSA)	Available on the Executive, Comprehensive, Priority and Saver plans The Medical Savings Account (MSA) is an amount that gets set aside for you at the beginning of each year or when you join the Scheme. You pay this amount back in equal portions as part of your monthly contribution. We pay your day-to-day medical expenses such as GP and specialist consultations, acute medicine, radiology and pathology from the available funds allocated to your MSA. Any unused funds will carry over to the next year. Should you leave the Scheme or change your plan partway through the year and have used more of the funds than what you have contributed, you will need to pay the difference to us.
Payment arrangements	We have payment arrangements in place with specific healthcare professionals to pay them in full at an agreed rate.
Related account	A related account is any account for dental treatment done in a hospital or day clinic. It does not refer to the hospital or day clinic account. This could be the anaesthetist, dentist or dental specialist's account.

About the different types of dental providers

There are many different healthcare providers who provide dental and dental-related services. These include dentists and dental specialists who are responsible for major dental procedures, as well as therapists and oral hygienists. Here are the different names and a description of each healthcare professional's responsibilities.

TERMINOLOGY	DESCRIPTION
Dental technician	Dental technicians do not see patients directly. Working from models of the patient's mouth, they make appliances like dentures, crowns and orthodontic plates after referral from a dental practitioner.
Dental therapist	Oral hygienists work with a dental practitioner doing oral examinations, x-rays, scaling and polishing, oral hygiene instruction, and fluoride treatment.
Dentist	Dentists generally deal with the normal maintenance of oral hygiene, for example fillings, extractions and root canal treatment.
Maxillo-facial and oral surgeon	Maxillo-facial and oral surgeons specialise in the treatment of structures in and around the mouth, for example extraction of impacted teeth, orthognathic surgery and the repair of fractures to the jaw and other facial bones.
Oral pathologist	Oral pathologists deal with pathology of the oral cavity.
Orthodontist	Orthodontists correct and preserve the ideal position of the teeth and dentofacial structures using braces, retainers, and other appliances.
Periodontist	Periodontists specialise in the diagnosis, prevention and treatment of gum disease, for example root planning, flap surgery and gingivectomy.
Prosthodontist	Prosthodontists specialise in replacing absent teeth and tooth structures as well as the restoration of natural teeth. This includes for example crowns, bridges and dentures.

Severe Dental and Oral Surgery Benefit

Tell us about your surgery and we'll tell you if it meets the clinical entry criteria for cover from this benefit

This benefit is subject to preauthorisation and the treatment meeting the Scheme's treatment guidelines and managed care criteria.

We cover a defined list of maxillo-facial procedures through the Severe Dental and Oral Surgery Benefit

The Severe Dental and Oral Surgery Benefit covers a defined list of procedures that are paid from the Hospital Benefit according to your chosen health plan. These procedures include:

- Internal temporomandibular joint (TMJ) surgery
- Cleft lip and palate repairs
- Surgery for severe life-threatening infections
- Cancer-related surgery

There is no overall limit for the procedures approved and covered by the Severe Dental and Oral Surgery Benefit. However, accounts for dental appliances and their placement are paid from the available day-to-day benefits, regardless of the place of treatment, and subject to the annual limit where applicable.

You have full cover for specialists who we have a payment arrangement with

You can benefit by using specialists who we have a payment arrangement with, because we will cover their approved procedures in full from the Hospital Benefit.

You may have a co-payment if you use other specialists

If you are treated in hospital by a specialist who we do not have a payment arrangement with, we cover you as follows:

- On the *Executive Plan*, up to 300% of the Discovery Health Rate (DHR)
- On the *Classic Plans*, up to 200% of the Discovery Health Rate (DHR)
- On the *Essential, Coastal* and *KeyCare Plans*, up to 100% of the Discovery Health Rate (DHR).

How we cover other healthcare professionals

We cover GPs and other healthcare professionals up to 200% of the Discovery Health Rate (DHR) on the *Executive* and *Classic Plans* and 100% of the Discovery Health Rate (DHR) on the *Essential*, *Coastal* and *KeyCare Plans*, from the Hospital Benefit.

How we cover radiology and pathology

We cover radiology and pathology up to 100% of the Discovery Health Rate (DHR) on all plans.

All other dental treatment in hospital (excluding severe oral and dental surgery)

You don't need to call us before having dental treatment

For all other in-hospital dental treatment, other than those covered from the Severe Dental and Oral Surgery Benefit, there is no need to call us before having treatment, even if you are admitted to hospital.

Upfront deductible payable for hospital or day clinic admissions

For this treatment you need to pay an amount upfront (deductible) to the hospital or day clinic for dental treatment done in-hospital. This amount depends on the member's age and the place of treatment. If the upfront amount is higher than the amount charged for the healthcare service, you will have to pay for the cost of the healthcare service. We pay the balance of the hospital or day clinic account from the Hospital Benefit. This applies to all plans except the *Essential Smart* and *KeyCare Plans*, for which dental treatment in-hospital is not funded. If you are on a network plan you need to use a facility in the network for your chosen plan.

This is the amount you need to pay upfront:

	HOSPITAL	DAY CLINIC
Member younger than 13 years	R2 750	R1 240
Member 13 years or older	R7 050	R4 500

If you are 13 and older, we cover routine dental treatment such as preventive treatments, simple fillings and root canal treatments performed in-hospital from your available day-to-day benefits.

We pay the related accounts for hospital or day clinic admissions from the Hospital Benefit

We pay related accounts from the Hospital Benefit.

We do not cover in-hospital dental treatment on the Essential Smart and KeyCare Plans

In-hospital dental treatment is not covered on the *Essential Smart* and *KeyCare Plans*.

This is how we pay for dental treatment, anaesthetics and dental appliances

DENTAL TREATMENT	
Executive Plan	Specialists paid up to 300% of the Discovery Health Rate (DHR), all other Health Care Professionals are paid at 100% of the Discovery Health Rate (DHR)
All other plans	Paid up to 100% of the Discovery Health Rate (DHR)
Other healthcare professionals paid up to 100% of the Discovery Health Rate (DHR)	

ANAESTHETISTS	
Executive Plan	Specialist anaesthetist paid up to 300%, GP anaesthetist paid up to 200% of the Discovery Health Rate (DHR)
Classic Plans	Paid at agreed rate or up to 200% of the Discovery Health Rate (DHR)
Essential and Coastal Plans	Paid at agreed rate or up to 100% of the Discovery Health Rate (DHR)

Dental appliances	
All plans excluding the Essential Smart Plan and KeyCare Plans	Accounts for dental appliances and orthodontic treatment, including related accounts for orthognathic surgery, are paid from the available day-to-day benefits, where applicable, regardless of the place of treatment and subject to the annual benefit limit

How we cover preventive dental treatments

If you are 16 years and younger, you are covered for two dental sealants for each dental quadrant each year. If you are older than 16 years, you are covered for two professionally applied fluoride treatments and cleanings each year. These services are covered from your available day-to-day benefits.

Dental limits

No overall limit for basic dental treatment

There is no overall limit for basic dental treatment on our plans. Cover depends on the plan you choose.

Basic dental treatment done in the dentist's rooms is paid from your day-to-day benefits

Depending on your plan, we pay for basic dental treatment done in the dentist or dental specialist's rooms from the available day-to-day benefits at 100% of the Discovery Health Rate (DHR). If you do not have funds available in your Medical Savings Account (MSA), where applicable, you must pay the dentist and dental specialist's account.

If you are on the Executive, Comprehensive or Priority Plans:

You have additional cover from the Above Threshold Benefit (ATB) when you reach your Annual Threshold. If you pay any accounts once your Medical Savings Account (MSA) is depleted, and before you have reached the Annual Threshold, remember to send the account to us so we can add it up to your Annual Threshold.

If you are on the Classic Smart Comprehensive Plan:

You have cover from the Above Threshold Benefit (ATB) once you reach your Annual Threshold. You also have cover for one defined dental check-up for each member each year at any dentist or dental therapist. This check-up covers you for a consultation, two bitewing X-rays, scale and polish, and fluoride. A co-payment of R110 applies.

If you are on a Smart Plan:

Members have cover for one defined dental check-up for each member each year at any dentist or dental therapist. This check-up covers you for a consultation, two bitewing X-rays, scale and polish, and fluoride. A co-payment of R110 on the *Classic Smart Plan* and R165 on the *Essential Smart Plan* applies.

If you are on a Core Plan:

We do not cover out-of-hospital day-to-day costs on Core Plans so you must pay these claims.

If you are on a KeyCare Plus or KeyCare Start Plan:

We cover selected basic dental treatment (consultations, fillings and extractions) only at a dentist who is on the KeyCare dentist network. Certain rules and limits may apply.

Dental appliances and orthodontic treatment limit on the Executive, Comprehensive and Priority Plans

When we refer to dental appliances we refer to any fixed or removable dental appliance such as implants, crowns, veneers, bridges, dentures and inlays. This also includes orthodontic treatment like braces and retainers and related accounts for orthognathic surgery. We pay all dental appliances, their placement and orthodontic treatment from the available funds in the day-to-day benefits (Medical Savings Account (MSA) and Above Threshold Benefit (ATB)) up to a limit per person per year regardless of place of service. These are not separate benefits. Limits apply to claims paid from the Medical Savings Account (MSA), paid by you and paid by the Above Threshold Benefit (ATB). On the *Classic Smart Comprehensive Plan* you have cover once you reach your Annual Threshold.

If you join the Discovery Health Medical Scheme after January, you won't get the full limit because it is calculated by counting the remaining months in the year.

PLAN	DENTAL LIMIT
Executive and Comprehensive	R30 750
Priority	R19 150

Getting the most out of your dental benefits

Use a dental specialist who we have a payment arrangement with

If we have a payment arrangement with the dental specialist, we will pay the account up to the agreed rate. If you don't use a dental specialist who we have an arrangement with, you will be responsible for any shortfall between what the provider charges and what we pay. Visit www.discovery.co.za or click on **Find a healthcare provider** on the Discovery app to find a provider that is covered in full to avoid co-payments.

Your dentist and dental specialist must include specific information on the account

Tooth numbers

Dentists and dental specialists use a numbering system to identify teeth in the mouth. This information serves a practical purpose in dental treatment. This tooth numbering system is done according to local and international guidelines. Your dentist and dental specialist must give the relevant tooth number(s) on their account. If we receive accounts with no tooth number(s), we will not be able to pay the account.

Place of service indicator

Your dentist and dental specialist also needs to indicate on each claim where they performed the dental treatment. This could be in the doctor's rooms, in hospital or in a day clinic facility. Including this information on your doctor's account will ensure we pay the accounts from the correct benefit. Without a place of service indicator on the claim, we will pay the claim from your day-to-day benefits.

COMPREHENSIVE SERIES

Severe Dental and Oral Surgery Benefit

The Severe Dental and Oral Surgery Benefit covers a defined list of procedures, with no upfront payment and no overall limit. This benefit is subject to authorisation and the Scheme's rules.

You must preauthorise your admission to hospital at least 48 hours before you go in. Please call 0860 99 88 77.

If you are on the Classic Delta and Essential Delta network option:

You are covered in full at private hospitals and day clinics in the Delta Hospital Network. For planned admissions at hospitals outside the network, you must pay an amount of R8 700 upfront to the hospital. This does not apply in an emergency.

If you are on the Classic Smart Comprehensive plan:

You must pay an upfront amount of R9 950 for planned admissions to hospitals not in the Smart Plan Hospital Network. This does not apply in an emergency.

Other dental treatment in hospital

You need to pay a portion of your hospital or day clinic account upfront for dental admissions. This amount varies, depending on your age and the place of treatment. We pay the balance of the hospital account from your Hospital Benefit, up to 100% of the Discovery Health Rate (DHR).

We pay the related accounts, which include the dental surgeon's account, from your Hospital Benefit, up to 100% of the Discovery Health Rate (DHR). On Classic plans, we pay anaesthetists up to 200% of the Discovery Health Rate (DHR).

For members 13 and older, we cover routine conservative dentistry, such as preventive treatment, simple fillings and root canal treatment from your available day-to-day benefits.

Dental appliance and orthodontic treatment limit

There is no overall limit for basic dental treatment. However, all dental appliances, their placement, and orthodontic treatment (including related accounts for orthognathic surgery) are paid at 100% of the Discovery Health Rate (DHR) and up to 200% of the Discovery Health Rate (DHR) for anaesthetists on the Classic Plans. Claims are paid from your day-to-day benefits (regardless of the place of service), up to an annual limit of R30 750 per person. These are not separate benefits. Limits apply to claims paid from Medical Savings Account (MSA), paid by you and paid from the Above Threshold Benefit (ATB). If you are on a Classic Smart Comprehensive plan, you will have to pay for these claims until you reach your Annual Threshold.

If you join the Scheme after January, you won't get the full limit because it is calculated by counting the remaining months in the year.

Basic dental treatment done in the dentist's rooms is paid from your day-to-day benefits

We pay for basic dental treatment done in the dentist or dental specialist's rooms at 100% of the Discovery Health Rate (DHR) from the available funds allocated to your Medical Savings Account (MSA) and from the Above Threshold Benefit (ATB) once your claims add up to the Annual Threshold. If you have run out of funds in your Medical Savings Account (MSA) and have not yet reached your Annual Threshold you will need to pay these accounts.

If you are on the Classic Smart Comprehensive Plan:

You have cover once you reach your Annual Threshold. You also have cover for one defined dental check-up for each member each year at any dentist or dental therapist. This check-up covers you for a consultation, two bitewing X-rays, scale and polish, and fluoride. A co-payment of R110 applies with the balance of this fee covered up to the Discovery Health Rate (DHR).

PRIORITY SERIES
