HIV Care Programme 2021

DISCLAIMER

The information contained in this document may be subject to change.

When you register for the HIV Care Programme, you are covered for the care you need. You can always be assured of confidentiality. The HIV Care Programme and the utilisation of the benefits on the programme is subject to specific conditions and rules. You must ensure that you are familiar with these rules and conditions. The Scheme rules and the most up to date HIV benefit guide are always available on www.discovery.co.za under Medical Aid > Manage your health plan > Find important documents and certificates > Benefit information.

Any instruction or advice we give about medicines and the management of your condition is intended as a supplement to, and not a substitute for, the knowledge, expertise, skill and judgement of the member's doctor, pharmacist or other healthcare professional.

You may need to get your medicine from a designated service provider (DSP) to avoid a 20% co-payment. Visit www.discovery.co.za under Medical Aid > Find a doctor or click on **Find a healthcare provider** in the Discovery app to find providers in our network.

Discovery Health Medical Scheme reserves the right to change the benefit at any time. We will communicate any changes to the way we pay medicines when we make these.
