Overview

Available on all plans, the Advanced Illness Benefit (AIB) provides members who have an illness in an advanced stage access to a comprehensive palliative care programme. This programme offers unlimited cover for approved care in the comfort of their own home or in a hospice facility. Palliative care is provided by a multidisciplinary team, in partnership with the Hospice Palliative Care Association of South Africa.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Day-to-day benefits	These are the available funds allocated to the Medical Savings Account (MSA) and Above Threshold Benefit (ATB), where applicable. Depending on the plan you choose, you may have cover for a defined set of day-to-day benefits. The level of day-to-day benefits depends on the plan you choose.
Discovery Health Rate (DHR)	This is a rate we pay for healthcare services from hospitals, pharmacies, healthcare professionals and other providers of relevant health services.
ICD-10 code	A clinical code that describes diseases and signs and symptoms, abnormal findings, complaints, social circumstances and external causes of injury or diseases, as classified by the World Health Organization (WHO).
Palliative care	Palliative care is specialised medical care for people living with a serious illness at any stage. This type of care is focused on providing relief from the symptoms and stress of the illness.

Your doctor must register you for cover on the Advanced Illness Benefit

To register, your doctor needs to complete the Advanced Illness Benefit (AIB) application form and email it to AIB@discovery.co.za. Up to date forms are always available on www.discovery.co.za under Medical Aid > Manage your health plan > Find important documents and certificates.

Access to the Advanced Illness Benefit is voluntary and is subject to clinical entry criteria

This benefit funds for palliative care for members in advanced stages of the illness, where curative treatment has ceased and there is a palliative care plan to address symptoms related to the illness. If your application is approved, you will have access to the benefits offered by the Advanced Illness Benefit (AIB).

Your cover on the Advanced Illness Benefit

The Advanced Illness Benefit pays for services provided by a multidisciplinary team

We will pay for healthcare services provided by any of the healthcare professionals represented in the palliative multidisciplinary team, according to a specific basket of care and the agreed individual member care plan.

These costs will not affect your day-to-day benefits and will be paid at the Discovery Health Rate (DHR) from the Hospital Benefit.

Palliative care must be accessed from providers who are registered with the Board of Healthcare Funders

We will pay for these healthcare services or treatments as long as the application is approved, and you use appropriately registered providers (with a valid Board of Healthcare Funders (BHF) registration number) who use valid tariff codes for the healthcare service or treatment.

We need the appropriate ICD-10 codes on accounts

All accounts for palliative care must have a relevant and correct ICD-10 code (diagnosis code) for us to pay it from the correct benefit. To ensure there isn't a delay in paying your healthcare providers' accounts, please notify the team managing your treatment (or your loved one's treatment) about this requirement.

Nominating a person to assist you

Where you, as the patient, choose to nominate someone to assist you with managing your medical aid, you can complete a third-party consent form. Up to date forms are always available on www.discovery.co.za under Medical Aid > Manage your health plan > Find important documents and certificates.

If at any stage, you wish to revoke consent for the sharing of information, you can notify us accordingly.
