DISCOVERY HEALTH MEDICAL SCHEME
2025

Chronic Illness Benefit medicine list (formulary) 2025

DISCLAIMER

This document outlines the medications covered without a copayment under the Chronic Disease List (CDL) conditions. Certain items are exclusively covered under the Executive and Comprehensive plans, while others may not be available on KeyCare plans.

We cover approved medicine that is not on the medicine list (formulary) up to a monthly Chronic Drug Amount (CDA), the Discovery Health Rate (DHR) or the Reference Price, whichever is the lowest.

Please note that the information in this document may change over time. The Chronic Illness Benefit (CIB) and how you can access these benefits are subject to specific conditions and rules. We encourage you to stay familiar with these rules, which are available on our website at www.discovery.co.za under Medical Aid > About Discovery Health Medical Scheme.

Any advice we provide regarding your medication or condition management is designed to complement, not replace, the expertise of your doctor, pharmacist, or other healthcare professionals. To avoid a 20% co-payment, you may need to get your medication from a designated service provider (DSP). You can find DSPs on our website www.discovery.co.za under Medical Aid > Find a doctor or click on Find a provider in the Discovery Health app to find providers in our network.

Discovery Health Medical Scheme reserves the right to change these benefits. We will keep you informed of any updates to how we cover your medication. The latest version of this document is always available at www.discovery.co.za under Medical Aid > Find documents and certificates.

Nominate a Primary Care GP for Chronic Condition Management

Coordinating your healthcare through a nominated primary care GP ensures better health outcomes, supported by extensive medical research. For all plans, except the Executive Plan, you and your dependants need to nominate a GP to help manage your chronic conditions.

When you visit your nominated network GP, your consultation will be fully covered up to the agreed rate. Visiting a non-nominated GP or your nominated GP is outside of the network will lead to a co-payment. You can easily update your nominated GP up to three times each year on our [website](http://www.discovery.co.za) or visit www.discovery.co.za > Medical aid > Nominate a primary care GP.

About some of the terms we use in this document

There may be some terms we refer to in the document that you may not be familiar with. Here are the meanings of these terms.

TERMINOLOGY	DESCRIPTION
Active ingredient	This is the main substance in a medicine that is responsible for the clinical action on a human body.
Benefit year	A benefit year refers to the benefits a member is entitled to during a calendar year, that is to say 1 January to 31 December. This medicine list (formulary) and Chronic Drug Amounts are applicable for this benefit year only.
Chronic Disease List (CDL)	A defined list of chronic conditions we cover according to the Prescribed Minimum Benefits.
Chronic Drug Amount (CDA)	The Chronic Drug Amount (CDA) is the monthly amount that we pay for a medicine class, subject to a member's plan type. This applies to chronic medicine that is not listed on the medicine list (formulary).
Co-payment	This is an amount that you need to pay towards a healthcare service. The amount can vary by the type of covered healthcare service, place of service or if the amount the service provider charges is higher than the rate we cover.
Emergency medical condition	An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment. Failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.
Generic Reference Price	The Generic Reference Price (GRP) is the price per unit assigned to all NAPPI codes within the same generic group. It is based on the cost of the best-priced generics in that group. This applies to chronic medicine that is not listed on the medicine list (formulary).
Medicine class	This describes medicines that have similar chemical structures or similar therapeutic effects.
NAPPI Code	This is a unique identifier for a given medicine, surgical or consumable product.
Prescribed Minimum Benefits (PMBs)	In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of: <ul style="list-style-type: none"> An emergency medical condition A defined list of 271 diagnoses A defined list of 27 chronic conditions. To access Prescribed Minimum Benefits (PMBs), there are rules that apply: <ul style="list-style-type: none"> Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit (PMB) conditions. The treatment needed must match the treatments in the defined benefits. You must use designated service providers (DSPs) in our network. This does not apply in emergencies. However, even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised. If you do not use a DSP we will pay up to 80% of the Discovery Health Rate (DHR). You will be responsible for the difference between what we pay and the actual cost of your treatment. If your treatment doesn't meet the above criteria, we will pay according to your plan benefits.
Reference Price	<ul style="list-style-type: none"> The Reference Price is the set monthly amount we pay for a medicine category. This applies for medicine that is not listed on the medicine list (formulary).

The Chronic Disease List (CDL) Enhanced medicine list (formulary) for all plan types

The CDL Enhanced medicine list applies to all Discovery Health Medical Scheme plans for the 2025 benefit year. We cover approved medicine that is not on the medicine list (formulary) up to the Chronic Drug Amount (CDA), Discovery Health Rate (DHR) or the Reference Price, whichever is the lowest. The Chronic Drug Amount (CDA) **does not apply** to the KeyCare and Smart plans.
