To keep the maximum gym saving at Virgin Active

- For the first 12 months of the Vitality Active gym saving, you will get the maximum saving applicable for the Vitality Active portion, regardless how many gym sessions you complete in those 12 months.
- As the main member or spouse with a Virgin Active Club gym membership, you need to complete at least 36 gym workouts in a rolling 12-month period to keep your maximum gym saving of up to 75% off the standard monthly gym fee. Otherwise, the up to 75% will reduce to 50%.
- At the end of your initial 12-month contract period of using this offer, we count your gym workouts to check that you have been to the gym enough times in that 12-month period to keep the maximum Vitality Active savings.
- You will get a lower discount until you have reached the 36 gym workouts in a rolling 12-month period again. If you then meet the required 36 gym workouts, you will not get the 75% saving immediately, you will only get the 75% saving in the following month.
- From then on, at the end of every month we count back 12 months to find out what your total number of gym workouts were during that period.
- Only one gym workout a day will count towards your total requirement of 36 gym workouts.
- You will receive the lower discount until you have reached the required 36 gym workouts in a rolling 12-month period again.
- For your workout to be considered valid for the purposes of this offer, you must exercise for longer than 30 minutes during each visit to your chosen health club.
