Earn base Discovery Miles

Discovery Bank primary account holders with a Transaction Account with bundled fees, Discovery Bank Credit Card Account or Discovery Bank Suite can earn base Discovery Miles on all qualifying account spend.

Qualifying spend that can earn Base Miles depends on the type of account you have:

- If you have a Discovery Bank Credit Card Account or Discovery Bank Suite, we count your card spend linked to your credit card accounts or foreign currency accounts.
- If you have a Discovery Bank Transaction Account with bundled fees, we count your card spend linked to your transaction accounts or foreign currency accounts.

Your qualifying spend includes local and international straight or budget Discovery Bank card purchases that have been banked by a merchant (online or in-store). Qualifying spend also includes prepaid products and services that you have purchased through the Discovery Bank app, Health Pay and Vitality Pay transactions, Vitality Travel bookings and visits to The Lounge paid for using your cards.

This excludes transactions listed under 'Transactions that do not qualify for earning base Discovery Miles'. The primary account holder will earn base Discovery Miles for spend on any qualifying secondary cards.

We calculate the base Discovery Miles that you earn from qualifying transactions and deposit it into your Discovery Miles Account immediately after the merchant has successfully banked the transactions. Your Discovery Miles will then be available to spend. We also calculate Discovery Miles deductions when refunds occur. This means we will debit Discovery Miles from your Discovery Miles Account for qualifying refunds.

Transactions which may qualify to earn Discovery Miles through other Vitality benefits, such as the HealthyFood benefit, will earn both base Discovery Miles and Vitality rewards, which we allocate in Discovery Miles. You must have Vitality Money activated and your account must be in good standing at the time of the transaction to earn Discovery Miles.

Discovery Miles base earn rates

Base Discovery Miles consist of a 'before-threshold' and 'above-threshold' earn rate and depend on whether a physical or virtual card was used for a transaction.

- **The below-threshold virtual card rate** is used if you have not yet reached your monthly spend threshold. To qualify, the transaction must be processed using a virtual card, a digital wallet linked to a virtual card, or must be for prepaid products and services that you have purchased through the Discovery Bank app. The rate also applies if you use your virtual card for Health Pay, Vitality Pay and Lounge payments. The below-threshold rate is determined by your qualifying Discovery Bank product and your Vitality Money status at the time of the transaction.
- **The above-threshold virtual card rate** is used if you have reached your monthly spend threshold.
- Any transactions **processed using a physical card or a digital wallet linked to a physical card will be processed at the physical card earn rate**. There is no above-threshold or below-threshold earn rate on physical card purchases. The rate also applies if you use your physical card for Health Pay, Vitality Pay and Lounge payments. Transactions linked to a physical card do not contribute to the virtual card monthly spend threshold.

The rates are set out in the table below. Earn rates show as rand spend for each Discovery Mile you earn on your qualifying Discovery Bank card spend.

	Vitality Money status	Gold Suite, Credit Card Account or Transaction Account with bundled fees	Platinum Credit Card Account or Transaction Account with bundled fees	Platinum Suite	Black Credit Card Account or Transaction Account with bundled fees	Black Suite	Purple Suite
Below-threshold virtual card earn rate	Diamond	R20	R20	R15	R20	R15	R15
	Gold	R40	R40	R30	R40	R30	R30
	Silver	R50	R50	R40	R50	R40	R40
	Bronze	R65	R65	R50	R65	R50	R50
	Blue	R100	R100	R65	R100	R65	R65
Above-threshold virtual card earn rate	All statuses	R100	R100	R100	R100	R100	R100
Monthly virtual card spend threshold		R10,000	R15,000	R15,000	R25,000	R25,000	R30,000
Physical card earn rate	All statuses	R100	R100	R100	R100	R100	R100

Note

- We'll use the below-threshold virtual card earn rate specified above when you haven't yet reached your monthly spend threshold, which is applied on a calendar month basis and uses the date on which you made the transaction. To qualify, the transaction must be processed using a virtual card or must be for prepaid products and services that you have purchased through the Discovery Bank app, Health Pay and Vitality Pay transactions, and visits to The Lounge paid for using your cards.
- If you haven't exceeded your virtual card earn threshold, then the transaction will qualify for the below-threshold virtual card earn rate proportionally to the remaining value until the cap is reached. The remaining portion of the transaction will qualify for the above-threshold earn rate. The above-threshold earn rate of up to ₣1 for every R100 spent applies if you exceed the spend threshold. There's no earn limit on your above-threshold earn.
- Physical card transactions do not earn at, or count towards, the below-threshold virtual card earn rate. These transactions always earn at the physical card earn rate.

- We round the amount of Discovery Miles to the nearest Discovery Mile when we award it into your Discovery Miles Account.

Example 1

Tlotlo is a client with a Discovery Bank Platinum Suite. Her Vitality Money status is Diamond and she has a **qualifying virtual card spend of R10,000** on her Discovery Bank Platinum credit card. Tlotlo uses her physical card to make a qualifying transaction of R4,000.

How to calculate the base Discovery Miles Tlotlo has earned

- *Determine which rate to use: The physical card was used so the **below-threshold physical card rate** will be used to calculate the base miles.*

Up to R1 for every R100 spent

- *Calculate her base Discovery Miles earned:*

$R4,000 \div R100 = \mathbf{R40}$ earned

Example 2

Tammy has a Discovery Bank Black Suite and her Vitality Money status is Diamond. She has a **qualifying virtual card spend of R29,500** on her Discovery Bank Black credit card. Tammy makes a transaction for R1,500 on her Discovery Bank Black virtual card.

How to calculate the base Discovery Miles Tammy has earned

- *Calculate the below-threshold virtual card earn rate based on her Diamond Vitality Money status:*

Up to R1 for every R15 spent

- *Determine the below- and above-threshold spend based on a **monthly spend threshold of R25,000** on a Discovery Bank Black Suite:*

The above-threshold rate is applied on the additional R1,500 transaction.

- *Calculate her base Discovery Miles earned:*

$R1,500 \div R100 = \mathbf{R15}$ earned

Example 3

Anandi is a client with a Discovery Bank Platinum Suite. Her Vitality Money status is Diamond and she has a **qualifying virtual card spend of R10,000** on her Discovery Bank Platinum credit card. Anandi makes a transaction for R6,000 on her Discovery Bank Platinum virtual credit card.

How to calculate the base Discovery Miles Anandi has earned

- *Calculate the below-threshold base earn rate based on her Diamond Vitality Money status:*

Up to R1 for every R15 spent

- Determine the below- and above-threshold spend based on a **monthly spend threshold of R15,000** on a Discovery Bank Platinum Suite:
R5,000 qualifies for the below threshold virtual card rate
- Calculate her below-threshold base Discovery Miles earn:
 $R5,000 \div R15 = \mathbf{R333}$ earned
The above-threshold rate is applied to the remaining R1,000.
- Calculate her above-threshold base Discovery Miles earn:
 $R1,000 \div R100 = \mathbf{R10}$ earned

Transactions that do not qualify for earning base Discovery Miles

You do not earn Discovery Miles for the following transactions:

- Cash withdrawals
- Traveller's cheque purchases
- Electronic funds transfers (EFTs)
- Budget facility transfers
- Gambling transactions
- Any monthly Discovery Bank and Vitality Money fees
- Debit orders
- Contact Payments transactions
- Payments made through online banking
- For Discovery Bank Credit Card Account and Suite clients any card spend linked to your transaction account

Discovery Miles with Discovery Invest PrimeFlex

As a Discovery Invest client with PrimeFlex*, you qualify to be awarded Discovery Miles during your investment, as long as you are a Vitality Money member or a Vitality Health member with Vitality Active Rewards activated.

Discovery Miles are decided by Discovery and the current guideline is R1 for every R20 invested. This first award will be made three months after your investment start date. After that, every 12 months after the last award payout, you can be awarded additional Discovery Miles for staying invested in PrimeFlex depending on your Vitality Money status at that time.

The current guidelines for Discovery Miles awards each year (depending on your Vitality Money status) are as follows:

Vitality Money status	Discovery Miles award
Diamond	₪1 per R20 initially invested
Gold	₪1 per R40 initially invested
Silver	₪1 per R80 initially invested
Bronze	₪1 per R120 initially invested
Blue or none	₪1 per R160 initially invested

You will qualify for the Discovery Miles awards for as long as you are invested in PrimeFlex and if you are a member of the Vitality Active Rewards programme, either as a member of Vitality Health or Vitality Money. If you're a Vitality Health Active Rewards member without Vitality Money, your Discovery Miles will be awarded based on a Blue Vitality Money status.

The Discovery Miles you are awarded do not constitute a return on your investment and are exempt from any interest you may earn. If you make a withdrawal from your investment, the number of Discovery Miles you qualify for will reduce proportionally.

Example

John invests R2,000,000 in PrimeFlex and qualifies to be awarded Discovery Miles during his investment. Based on his investment amount and as a member of the Vitality Active Rewards programme, the rate of ₪1 for every R20 invested will apply. John will be awarded ₪100,000 after three months.

Each year, around the anniversary of the original Discovery Miles payout, John qualifies to be awarded more Discovery Miles for staying invested with Discovery, based on his Vitality Money status.

The above example is not guaranteed and is provided for illustrative purposes only.

*Discovery Miles do not constitute a return on your investment and are independent of any interest you may earn. You will be qualify for the Discovery Miles awards for as long as you remain invested with PrimeFlex in qualifying funds and you are a member of the Vitality Active Rewards programme, either as a member of Vitality Health or Vitality Money. The Discovery Miles that you qualify for may be adjusted for any withdrawals you may have made during your investment. The figures are shown for illustrative purposes based on current guidelines and are subject to change at Discovery's discretion. No values are guaranteed and actual benefits might be different from the figures shown.

Earn on debit orders for Discovery Life Bank Integrated policies

You can earn up to 7.5% of a debit order for a Discovery Life Bank Integrated policy back in Discovery Miles when the debit order is paid from a qualifying Discovery Bank account.

To qualify for these Life Integrator Miles, you must be the primary account holder of a Discovery Bank Credit Card Account or Discovery Bank Suite and have a Bank Integrated Discovery Life Plan debit order paid from a Discovery Bank account.

The dynamic rewards percentage for the Life Integrator Miles you get is based on your engagement with Vitality Money:

- You must have a qualifying Discovery Bank product (a Discovery Bank Gold, Platinum or Black Credit Card Account or a Discovery Bank Gold, Platinum, Black or Purple Suite).
- If your Vitality Money was not automatically activated, you must activate Vitality Money. Your Vitality Money status will be a factor.
- Your accumulated qualifying monthly spend is a factor. Click [here](#) to see more information on spend.
- Your account must be in good standing.

Tracking your rewards

Once you qualify, you can track the Life Integrator Miles you earn in the Discovery Bank app. When you log in to the app, you'll see two reward percentages on your dashboard. These are the reward percentage you have earned in the current month and your dynamic reward percentage for the next month.

Things you need to know

- Your earned reward percentage for the **current month** is the rate at which you will earn Life Integrator Miles during the current calendar month.
- Your earned reward percentage for the **current month** is based on:
 - The Discovery Bank product you had on the last day of the previous calendar month
 - Your Vitality Money status on the last day of the previous calendar month
 - Your accumulated qualifying monthly spend on your Discovery Bank credit card for the previous calendar month.
- Your dynamic reward percentage for the **next month** changes throughout the current month based on the following:
 - Your Discovery Bank product
 - Your current Vitality Money status
 - Your accumulated qualifying spend on your Discovery Bank credit card in the current calendar month
- Your dynamic reward percentage on the last day of the current month will become your earned reward percentage from the first day of the next month.

- You receive your Life Integrator Miles as soon as we successfully process a Discovery Life debit order, which is Bank integrated, meaning you earn Life Integrator Miles in real time upon successful payment.
- If the debit order for your Discovery Life policy is paid by another Discovery Bank client, they will receive the Discovery Miles.

You can view your dynamic reward percentage in the Discovery Bank app and increase your next month's reward by improving your Vitality Money status or increasing your qualifying Discovery Bank credit card spend.

Calculating your Life Integrator Miles

- Once we process a Discovery Life debit order linked to a Discovery Life Bank Integrated policy from your Discovery Bank account, we apply an earn rate to your debit order amount, multiply it by 10 and round it off to the nearest Discovery Mile to calculate your Life Integrator Miles.
- There's a maximum number of Discovery Miles that you can earn based on your Discovery Bank product. This cap is applied to each debit order.

Product	Discovery Miles
Discovery Bank Gold Credit Card Account Discovery Bank Gold Suite Discovery Bank Platinum Credit Card Account Discovery Bank Platinum Suite	₺1,500
Discovery Bank Black Credit Card Account Discovery Bank Black Suite	₺3,000
Discovery Bank Purple Suite	₺4,000

Note that we use the lower of the above points to allocate Life Integrator Miles.

Things you need to know

- You must earn a minimum of ₺100 to receive Life Integrator Miles.
- The reward is paid on Discovery Life policies that are integrated with Discovery Bank. Speak to your financial adviser for more information about Discovery Life Bank Integrated policies.
- The Discovery Life Discovery Card Protector (DCP) and Health Plan Protector (HPP) plans do not offer Life Integrator Miles.
- Consolidated debit orders do not qualify. Please contact Discovery Life to change this to qualify for Life Integrator Miles.

Case studies

Example 1

Jody has a Discovery Bank Gold Suite and an active Discovery Life Bank Integrated policy. She has achieved a monthly qualifying spend of between R12,500 and R14,999.99 and is on Gold Vitality Money status for August. Her Life Integrator Miles percentage is 2%. In September, we process her Discovery Life debit order for R1,200.50.

She qualifies for:

Debit order	R1,200.50
Discovery Bank Gold Suite cap	€1,500
Multiplier	10
Life Integrator Miles percentage	2%

The lower of $(R1,200.50 \times 2\% \times 10)$ or $(1,500)$

= (240.1) or $(1,500)$

= 240.1

= €240

Jody earned more than €100, so she receives €240.

Example 2

Nicola has a Discovery Bank Gold Suite and an active Discovery Life Bank Integrated policy. She has achieved a monthly qualifying spend of between R7,500 and R9,999.99 and is on Blue Vitality Money status for August. Her Life Integrator Miles percentage is 0.75%. In September, we process her Discovery Life debit order for R520.50.

She qualifies for:

Debit order	R520.50
Discovery Bank Gold Suite cap	€1,500
Multiplier	10
Life Integrator Miles percentage	0.75%

The lower of $(R520.50 \times 0.75\% \times 10)$ or $(1,500)$

= (3.90375) or $(1,500)$

= 3.90375

= €4

Nicola earned less than €100 so she does not qualify for Life Integrator Miles for the month.

Example 3

Tebogo has a Discovery Bank Platinum Suite and an active Discovery Life Bank Integrated policy. He has achieved a monthly qualifying spend of more than R50,000 and is on Diamond Vitality Money status for August. His Life Integrator Miles percentage is 2.5%. In September, we process his Discovery Life debit order for R6,520.50.

He qualifies for:

Debit order	R6,520.50
Discovery Bank Platinum Suite cap	€1,500
Multiplier	10
Life Integrator Miles percentage	2.5%

The lower of (R6,520.5 x 2.5% x 10) or (1,500)

= (1,630.125) or (1,500)

= 1,500

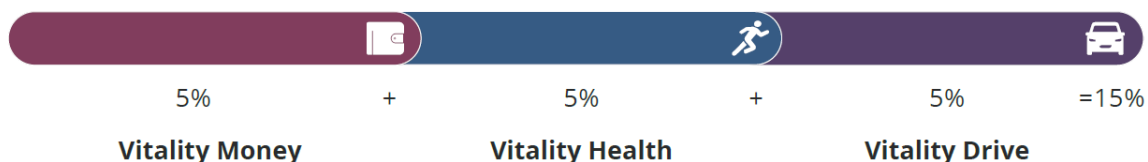

= €1,500

Tebogo earned more than €100, so he receives €1,500.
